

## ***Desert to Green Valley – How Did It Happen?***

Learn the history of Green Valley's large-scale, master-planned community, including its role in Henderson's population growth to 280,000 people in just four decades. Our speakers include:

**Brian Greenspun** - whose Southern Nevada pioneer family fashioned far sighted vision, land acquisition and a City of Henderson partnership into a new Southern Nevada community.

**Mark L. Fine** - as President of America Nevada Corporation guided the development and growth of Green Valley for 17 years. Hear how he values open spaces, parks, public art, schools and libraries for their importance in creating a sense of community.

**Robert E. Campbell** - brought a wealth of public services and city management experience to the Green Valley development where he served as Senior Vice President and General manager 1981 to 1985. Campbell was City Manager of Henderson for nine years.

**Brad Nelson** - COO Development/Senior Vice-President of America Nevada Corporation 1984 to 1999 who completed the master planning, entitlements, development and sales of Green Valley, Green Valley Ranch and Seven Hills in Henderson, totaling over 15,000 residential units and 450 acres of commercial, office and industrial areas on 9,700 acres.
