Governor Holds Special Meeting of Big-Wigs Here Saturday

MORRY'STORY

By MORRY ZENOFF

There's a war co

In plainer words, we can't find,

There's war coming.

When the president of the United States says so.

When the joint chiefs of staff say so. when senate leaders-whether you like them or not-like

Pat McCarran say so

There's war coming.

And when war correspondents -newspapermen of long training

s observers say so. I'm convinced.

Whether it will be here tomorrow, this year or next yearme knows. Only Stalin knows. He will name the day. He is an old nan. He has suffered thru the horrors of building a people for war. He doesn't want to die without carrying thru as the war leader, too. He wants to be the ruler of the world. He wants that before he dies. Therefore I believe he will order war soon.

As we go about our daily chores, let us not forget that we face conflagration-the greatest of all time. We must be ready and we must get ready if we aren't ready.

Army chiefs say we won't have our armies ready or enough planes unfil 1852.

Wish they wouldn't say it, even if it is true. It is an invitation to the enemy to strike now.

But, if that be the fact-it is sad.

But, it should encourage us to hurry to get ready and be strong in other fields. We know we've got 'em passed up in atomic warfare. Yet, this week, the government tells us that an enemy invasion by planes carrying atomic bombs would prove 80 per cent effective. That's terrible news.

We must hurry to get prepared.

What can we do-you and I-with no tools other than type-What can we do-you and I with no tools other than type Our Football Team writers, piecework jobs, cash registers to punch in stores, autos to repair. What can we do to get prepared!

My word is-have faith. Cooperate with any official word or ruling. Read up on atomic preparedness. Educate your offspring on rules they must follow if a sudden attack comes.

Have a family story built up. Where each member knows his role. Have some groceries stored away-not too much-but enough for a week. Pick out a spot in the desolate desert or nearby mountain area where you and your neighbors can drive to, rush to and shack up for a day, a week.

Actually, we are better off here than in Chicago, Indianapolis, San Berdoo, Frisco, San Diego.

But get ready, be ready, be aware, study, plan, be available to cooperate. Money, politics, pull won't save you. Only cooperation and solid thinking and planning will save you-and your family.

I write this way-because the headlines this week make me fear the worst-let us prepare to make the best of the worst if it

No one else can guarantee your safety. The authorities will try. It is your job, in my opinion, to make your own arrangements with destiny.

-we turn to ways to make life go on-peacefully Life o while we inwardly pray for world peace-for some miracle to wipe

Life goes on and we hear of a wonderful drive we should support as Earl Brothers seeks to collect money from business men an

Housing Situation At Standstill Right Now, Here Are The Facts To Bring You Up To Date

By Jim McKay

For the benefit of the numerou new residents in Henderson and Herderson area we believe the that if will serve a useful purpose to bring an abbreviated history of the housing question in order to bring everyone up to date. Like the Silver State of Nev-

ada, the Community of Henderson was "Battle Born." It was origi-

nally planned and constructed to supply housing facilities for the personnel engaged in the con-struction and operation of Basic Magnesium Plant, completed in 1943, the new community consisted of 1.000 (two and three bed-room) house and two apartment buildings together with commercial and recreational facilities, fire department, and a modern hospital. Overnight the third largest city in Nevada came into being. It was named for Leon Henderson and the Defense Plant Corporation were the first administrators of the town. Following VE Day, magnesium production at the Basic Plant ceased with the Chlorine and Caustic Sections being leased to the Stauffer Chemical Co., while portions of the rest of the plant were leased and optioned to other corporations in cluding Rheems Manufacturing

In 1945 vacancies in the community mounted at a very steep rate and the housing authorities being anxious to avoid losing money in operating the housing opened the doors to any who cared to rent. Efforts were made to place before the general pub-lic the advantages of low rent plus free utilities in order to secure maximum tenancy. The efforts and the were successful s occupied.

While the housing had always been a major consideration with the Colorado River Commission the disposal of the plant was its chief problem. In order to make the offering of manufacturing facilities as attractive as possible. the Commission pointed out to the various possible purchasers and lessees that there were housin gracilities, adjacent to the plant. It must follow that the Commission had intended that when it became necessary to furnish housing to lessee companies that they would disposse ess the present occupants. In the interim however the money provided thru 100 per cent rental of the hous ing facilities was sufficient to take care of the operational exes of the town and still leave a surplus to be applied to the purprice of the entire Basic and Henderson facilities.

To retrogress for the moment, in order to make the background complete, the State of Nevada acquired these facilities from the Federal Government by assuming definite contractional obligation to purchase the property for the sum of \$24,000,000 - The Federal rnment reserving all the net income however as payments on account until the whole amount was gaid in full. The Contract referred to is called the Letter of The method by which-housing has been distributed since 1946 has been on a pro-rata basis to each of the lessee companies as it became "available," with priority going to plant employees. The housing became available when a tenant of his own volition vacated or in some instances was evicted for non-payment of rent or other direct violations of the lease agreement. Until August of this year, no effort was ever made to evict a tenant in order to give his house to another person, simply because that person was Ve plant employee. It should also be said that the position taken by the Colorado River Commission, and the Plant Lessees. that only plant employees were qualified to retain housing in Henderson has been developed during the past few months. This may be seen to be true because, there

not be held to have originated with the Federal Government dur ing its operation of the plant. much for the backgroun

FIVE CENTS

we come now to the two points which are of principal interest to the residents of Henderson. The idea of purchasing the homes in which they reside and the present policy of evictions by the Colora-do River Commission.

The idea of purchasing the homes gaes back a number of years and it might be said is an a numbe inherent one in each individual. Specifically the people have been romised and assured from time to time by practically every candidate for public office since 19-45 that when the plant was disposed of by sale to the public they would be protected and have every opportunity to purchase the homes in which they lived. John Mueller. when Project Manager for the Colorado River Commission, called in and began negotiations with the Henderson Tenants Council for the purpose of preparing a plan which could be submitted to the General Sercould vices Administration in order to bring this objective about. It was not possible at that time to actually sell the plant or the housing as the power committments had not become firm. We must of Innow go back to the Letter tent in order to determine when the Colorado River Commission must submit a plan of sale for the entire faculty; quoting Para-graph 22 of the Letter of Intent: 'Six (6) months after the execution of the firm power contracts under which an adequate supply of power will be assured for the operation of this facility, Purchaser will submit a concrete plan for advertising sale of this facility. This plan shall be submitted to Seller for approval. In the

event Seller approves the plan submitted, Purchaser hereby obligates itself to advertising the facility for sale in accordance with such plan within four months from the date of this approval. Failure to comply with this provision shall be cause for termination' of this agreement or reconveyance of the property to the Seller at its option.

According to statements made by the Colorado River Commis-sion the condition necessary to bring this clause into operation has transpired, actually occurred many months ago, by the power contracts becoming firm, there-fore, the Commission is now oblifore, the Commission is now obta-gated by its contract with the Federal Government to offer a plan of sale and after securing approval of same to offer the ntire facility for sale.

In January of this year the new Colorado River Commission an nounced that it was their intention to carry out the provisions of Paragraph 22 of the Letter of Intent at the earliest possible.

When this announcem ent was made the Henderson Tenants Council took immediate steps to protect the interests of the people by preparing and submitting a plan to the residents of Henderson under which they could pur-chase their homes. Of the 992

Materials are very scarce and are getting scarcer so Earl orde the boards, one for Henderson, one for Boulder, to make sure the be here for football sesson.

It is a worthwhile community drive.

Talking of football, reminds us of the current game now in p in which the water district of Vegas is battling the power n guls of Washington over the water of Henderson.

Charles Russell, our governor, comes back from Washing this week with encouraging news-that something will be work out, not only on the water, but on the actual evolvement of the tire plant selling and townsite selling deal-a formula approved or Mr. Jess Larson-which should manage to stear the cou his he truer and straighter for the CRC-if more interference comes, it that's enui-then the people, the county, the state should step and inform the power moguls that enuf is enuf.

We are glad to have advocated the trip to Washington by the governor, and others. I wish he had taken the entire commission. I feel those follows on that board fear no man-regardless of rankand believe in protecting and serving the public-come what may.

In speaking with county commissioners, the D. A., the feeling I get is they're very anxious to be of service to Henderson. They tren't sitting back like vultures ready to pounce it and grab taxes a soon as private property gets on the tax rolls. No-they wish to be glad to champion any of your beefs or praises

self government.

When I took office the past week as a member of the Regional Planning board, I found that board members were receptive to including Henderson and Boulder in the master plan.-No longer is the thinking going to be for Las Vegas only-it is for the entire county. Improvements, soning, planning will now do its good turn for all-with an eye always being directed on the distant future as well as the immediate future, with an eye always on the objective to make this ideal for everyday living.

Your ideas and thoughts on planning will be appreciated. I'll

Gum Machines Now Aid "Rec" Association

Each organization in town is being asked to select a represen-tative to attend the next meeting of the Recreation Association, in order to nominate members of a board of trustees to help in planning and maintaining future re-creation activities, especially as those at Peterson Field. This was decided at a meeting held Tues-day night in the Teen-age Club building, with president Mel Bloom osce again emphasizing that after September 1 the park will belong to the community.

Vice president Jerry Watts re-ported that the Las Vegas Ex-change Club has relinquished all claims to the 10 Ford ball gum machines now in town, and that the Recreation Association will now receive 20 per cent of the pennies in the machines following the signing of contracts to use the money for benefit of youth activities. These machines are used to raise funds all over the United States. Locations are be-ing sought for 10 more machines in Boulder City.

Dove Hunters Shoot This Week

Nevada dove hunters will have a statewide season from Septem-ber 1 to September 30, the state fish and game commission said

today. Hunting doves and limits as set by the federal government allow dove hunting from sunrise to sunset, with a bag and possession ficials emphasized that this can-not be interpreted to mean 10 Kindergarten Age limit of ten birds. Commission of birds for the day's hunting, plus another 10 from the previous day's shoot. Hunters were also notified that

both federal and state laws prohi-bit the use of any shotgun capable of holding more than three shells. Repeating scatterguns which are properly plugged will conform to federal and state regulations according to the announcement.

Doves are present in good num-bers over the state and prospects for a successful season look very good

The Neumanns The Clarence Neumanns, 651 Avenue I, came_back Saturday night from a trip to Arizona, Col-orado and New Mexico. They attended the Community Church in Flagstaff, on Sunday. They saw the wonderful Indian ceremonials at Gallup, New Mexico, and visited Durango over the million dollar highway to Ouray an old mining town that still has a nar-row gage railroad. Helen's father built the first school in this area. Also at Gunnison, and the origi nal western state school which was built by Helen's father is was built by Helen's father is new a college, she says. They visited relatives in Denver, and attended the dog races there. On the return trip they came through Yellowstone Park.

PARTY TONIGHT A birthday party will be held for the Reverend Olaf Stoeve, the pastor of Grace Community Ch., at 8 o'clock tonight on the church lawn. The congregation is invited including the children. Refresh-ments will be served.

Surprise Party Lillian Collins, 908 Wyoming received a very pleasant surprise on Sunday evening in honor of her birthday. Friends Virginia and George Campbell aranged it all— a completely cooked dinner, including baked ham, a decorated cake. etc. Lillian says she really was surprised when Virginia rang

Mothers' Club Has Farewell Party

Marjorie Voss was honored with a surprise farewell party on Monday night, by the Mothers' Club. Mrs. Voss, who has been a member of the club for many years is moving to Phoenix, Arizona. The meeting was held at 532 Birch Street, with Clara Turner and Lida Graybill as co-hostesses. Mrs. Voss received a srower of approximately 40 handkerchiefs, which were presented to her in a paper travelling bag made by president Frances Wegren. Two song parodies written by Ella Mansor were sun-in her honor at the beginning of activities. The refreshment trays each contained a tiny paper traveling bag as a favor. The club gave Mrs. Voss a leather covered scrapbook, in which everyone present wrote a message. Several former members message. Several former members and neighborhood friends of Mrs. Voss were also present. Guests attending were Uarda Crossley and Ida Mae Williams, now of Henderson; Alice Shanahan, Es-ther Shipp, Catherine Manning, Belle Anderson, Ann Hodge, Lau-ra Bell, Lillian Whalen, Amelia Davis, Agnes Johnson, Nita Neal, and Erme Godbey. Game winners Davis, Agnes Jonnson, Anta Near, and Erma Godbey. Game winners were Ann Hodge, Billie Benson, Ella Mansor Esther Shipp, Ida Mae Williams and Billie Buzick. Door prize was won by Jean Pi-

lant. At the business session, roll call was answered with a wide assortment of aprons for Sunny Acres state children's home. It was also reported that several heavy garments have been cleaned and are ready to send. The group is also planning to give help to the Las Vegas juvenile home in the near future

Requirement Same Intermediate C. E.

Elbert Edwards, superintendent of schools, has announced that the kindergarten entrance age has not been changed, in spite of the efforts of the last session of legislature. Children may not be admitted unless they are five years old on or before October 1, whereas children may be admit-

ted to the first grade if they are six years old on or before Decem-ber 31. All efforts made by PTA groups in the state, and other ed-ucational associations, to bring about a conformity in entrance age laws with Senate Bill No. 10 were defeated at Carson City during the past legislature session.

Many local mothers are considerably provoked, pointing out that this discrepancy in age requirements puts many children in the first grade without the benefit of previous kindergarten train ing.

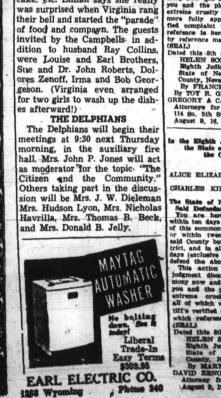

David and Vickie Zenoff, of Milwaukee, Wisconsin, have been visiting their father Morry Zenoff this past week, up on Moust Z. The two left by train on Tuesday night, to return home.
