NUMBER 44 HENDERSON, NEVADA THURSDAY, JUNE 2, 1955 HOME EDITION FIVE CENTS

New Furniture Store Opens Here Tomorrow

The Henderson Furniture Company will open its doors to the public tomorrow morning with a big opening sale featuring some of the finest furnishings ever offered to the people of this area. There will be free gifts for everyone visiting the store and a huge array of the finest of gift items will be offered at \$1 each. A grand prize of a living room set will be given away to some lucky customer. The drawing for this grand prize will be held on Saturday afternoon and the winner need not be present.

Levoff, owner, will be in charge of the new Henderson Furniture Company store at 147 West Street. When help is needed, plans to employ local men in every way make a home town store. Free and easy credit terms available, Levoff said. The new furniture outlet has a set of furniture display and is decorated in pastel gray, and pink, which beautifully with the colors of the furniture on

Each section will be devoted to items where the local man will find suitable gifts for any occasion. The new store will handle nationally known quality merchandise; Kroehler and Wakefield upholstered beds, Rembrand lamps, Cros-Bendix appliances, and

Packard Bell television sets. Hendersonians will now find a complete line of home furnishings available at home including Heavenly Carpets by Lees.

On Friday and Saturday, during the grand opening sale, Henderson Furniture will remain open until 9 p.m. in order that everyone in the community may have an opportunity to visit the new store and register for the grand prize.

Those who are not presently in need of furniture or other products on sale at Henderson Furniture, are under no obligation to make any purchases in order to receive their gift. Acquainted gift and participate in the grand prize drawing. Levoff extends an invitation to every family in the city to visit the new store during its opening this weekend.

WECCO Appoints Shurtz Director Of Research

Appointment of Robert F. Shurtz to the position of Director of Research of Western Electrochemical Company was announced today by Fred D. Gibson, Vice President and General Manager.

The action was taken by the Company's Board of Directors at its regular meeting on May 25th. Shurtz will be in charge of all of the companies research and development activities both at the Henderson plant and at the Research Laboratories maintained at Culver City, California.

Shurtz has been employed by Western Electrochemical Company as Chief Engineer since February, 1951, having previously been on the faculty of the University of Texas. Earlier experience included employment by Basic Refractories of Cleveland, Ohio, its successor, Basic Magnesium, Incorporated, and the Dorr Company.

Shurtz is a graduate of Ohio State University holding the professional degree in Mine Engineering and the degree of Master of Science. He is the retiring president of the Henderson Rotary Club.

This Is Our City

Mayor James French Says . . .

Many thanks to all of our kind friends for their expression of sympathy and help in the recent accident to Linda. It is at times like these that one deeply appreciates friendship.

I am most happy to report that while Linda lost an eye, it appears that there will be no disfigurement or scarring of any major importance and she can return to the carefree life of childhood; we trust, with no scarring of her personality or mind which is far more important than the loss of the sight of one eye.

The family is deeply grateful for all the prayers offered on her behalf, for the kindness with which God has treated us. Accidents of this nature are always hard to take and require adjustments in one's life and thinking. However, they will occur and one must accept the fact that life, at best, is a series of pleasures and sadness, hurts and joys and hope that out of each difficulty one may learn the lessons in life which these problems are meant to teach us.

375 Boys Will Play In First Annual All-City Baseball League

"Pete" Poncin Passes Away

This area today was mourning the death of one of its older residents—George Peter "Pete" Poncin whose familiar little real estate building was a landmark in the Pittman ward of Henderson.

Poncin, 81, passed away yesterday afternoon after a brief illness.

Funeral services will be held Friday afternoon at the Boulder City cemetery with Father David Wilson presiding. The rites will be private.

Poncin is survived by two daughters, Mercedes Manis, wife of John Manis, Boulder City, and Eulilia Beatty of Port Orchard, Washington.

Poncin came to Nevada in 1935 as an employee of the Park Service and moved to Southern Nevada after retiring from the Park Service and then started his real estate business in 1942.

Cubs Need Wheels For Soap Box Derby

Den 5 of Cub Scout Pack 8 need two pair of wheels with axles with which to build their entry for the Soap Box Derby.

The Cubs have gone through the dumps and covered every source known, but have not yet found the necessary wheels and axles for their vehicle.

Anyone having a worthless car or wheels and axles available for the cub den is asked to contact Den Mother Constance Tournabene at 55 Wyoming, or Mrs. John Monk at FR 4-8253.

In order for the Cubs to enter the derby, construction must be started immediately on their "soap box" as the contest will be held on June 27.

Elks to Hold Flag Day Service

Boulder City and Henderson Elks Lodges will work in conjunction with the Las Vegas Elks Lodge in holding their annual Flag Day services at the conclusion of the parade in Las Vegas on Sunday, June 12.

The parade will start at Main and Fremont streets at 4 p.m. and proceed down Fremont to Fourth Street and will go north on Fourth to the City Hall. Several marching groups and the Nellis Air Force Band will participate in the parade. The theme of the service will be "Show Your Colors."

An interesting program is planned with Lt. Col. Nece of Nellis Air Force Base as the principal speaker. P.E.R. Francis Brown of the Las Vegas Lodge will be Master of Ceremonies. The three lodges will perform the ritual service.

Flag Day is June 14 and everyone is urged to proudly display their flags and attend the services, according to Leo Cornett, social and community welfare chairman.

Find No Trace Of Missing Men

According to a report from the Lake Mead Ranger Station at press time, no trace of the two Henderson men, missing since their boat overturned in the Colorado River Saturday evening.

Searchers have scoured the area almost constantly since the accident occurred and Don Squires, District Ranger, said today that the search will continue as long as there is any possibility of finding the missing men.

HILLIARD INJURED

Robert Hillard, 131 Elm Street in Rose de Lima Hospital. Hillard is being treated for a broken hip sustained on Saturday when he fell in the kitchen at his home.

WOLVES FLY TO SAN LUIS. OBISPO IN SPECIAL PLANE; THAT CITY IS BUZZING OVER FIGHT FOR VICTORY

By Morry Zenoff

Because of the importance of the BIG game tomorrow between Henderson and San Luis Obispo, KBMI in cooperation with 20 merchants of this city will present a between music record play-by-play broadcast of the battle direct from the California city's baseball diamond.

KBMI originated the between music record type of broadcast last fall in handling the playoff football game of the high school team. The station's format of music every minute will thus be maintained and a regular half inning summary will be read in the minute between records.

Rick Richardson, station operations manager, will be at the local end of the line to recreate the play by play he will receive from diamond-side.

The game will start at 3 p.m. and will be a nine inning contest for the C.I.F. Northern division championships.

The Basic boys will fly via special Bonanza chartered plane at 8 a.m. Friday morning, arriving at 10:30. They will be met by bus, treated to a luncheon by the host school officials and then taken to the first class ball park of that city. The park has an all dirt infield, an all grass outfield and serves as the field for both the high school and city team. The park seats 1,000 people.

A phone call yesterday from Basic Coach Johnny Tartan to San Luis Athletic Director Arthur Godfrey (that's right) brought out that the California city is buzzing with excitement over the impending duel and that a post game banquet is being planned for both teams at the high school cafeteria. The Basic team will fly back Saturday night.

San Luis Obispo's record for the year is 21 wins against 4 losses while our team has 16 wins against 4 losses.

Stars for the Californians are pitchers Hurley and Lopez and best hitters are Worship and their catcher.

The Henderson team is in tip top shape and raring to go with Ray Martinez on the mound and Bob Peck catching. Don Wilson will be at second base, Doug Lottridge at first, Rod Blue in right field, Norm Craft in center, Ed Johnson at third, Dave Rothwell at short and either Charley Schneider or Ken Harris in left field. Schneider will be available to relieve Martinez if necessary.

Don Ashbaugh's . . .

Now . . . I'll Tell One

By RAE VON DORNUM

With Don still sojourning in the Veterans Hospital in Long Beach, I have adopted a new theme song. That old, old hit parader, "You Went Away Too Far and You Stayed Away Too Long."

A card to the gang at the Home News, 23 X-Rays and 14 exams after arrival tells us: "If you suspect something's wrong with you, the V.A. will find it, even if they kill you doing it! Latest wrinkle is a shot which causes you to drain all the water out of your carcass—lose nine pounds in one day—Hope you are the same—Don."

Funny deal. Don is the one member of the staff who didn't appear to need a reducing shot. Just goes to prove you're more apt to be shot by a hypo than a minnie ball.

Governor Charles Russell recently joined the governors of 23 other states in designating 1955 as "Slow Down and Live" year. In addition to the state and municipal governments, business and industrial leaders, civic and service organizations and safety groups throughout the nation have joined together for the promotion of "Slow Down and Live."

To date the automobile makers have not joined up. Each new model seems more highly advertised because a few more horses

have been added to the engine. Super speed seems to be the thing that sells most of them.

Nevada, according to John J. Sullivan, director of the division of vital statistics, has one of the poorest age-at-death averages in the nation. The principal reason for this is the state's unusually high death rates from violent causes including auto accidents.

In addition to "Slow Down and Live" year, the month of June has been proclaimed "Dairy Month," by Governor Russell. Milk drinking is especially urged during June as an aid to better health.

June seems an exceptionally fitting month to be so designated, because it follows the month of May. Although to our knowledge it was not so proclaimed by any state or civic official, May was designated as "Tavern Month."

The TV announcer who advertises the "beer with just the kiss of the hops," told us all about it at least once every day in May. He told everyone that during this month they should visit their friendly tavern owners.

I'm still waiting for him to take his own advice, get his tang all tumbled up and say "just the hiss of the cops." A very possible consequence for those who might have taken his advice.

PROCLAMATION

CARSON CITY—Recognizing the production, processing and distribution of milk and dairy products as one of the state's outstanding industries, Governor Charles H. Russell this week designated all of June as "Dairy Month" in Nevada.

In his proclamation, the Governor pointed out that the health of every man, woman and child is of vital concern and that the economic welfare of Nevada is of paramount importance, each depending to a great degree upon the continued development of the dairy industry.

In Nevada, "many, many persons are employed in the production, processing and distribution of dairy foods," the Governor said. The proclamation urged that residents of the state join in the observance of Dairy Month "to the end that all may increase their appreciation of dairy foods, improve health and financial well-being."

The Governor called attention particularly to the fact that research in nutrition has definitely established that milk and milk products "are essential to the health of every human, regardless of age."

Morry's Story

Reading Bill Belknap's column last week almost brought tears to my eyes as he told about the old goat he had found in some far desert. I guess many others of our readers had the same reaction for we received telephone calls telling us how well the story was written and how saddened they felt.

You, Bill, you always get something started.

I picked up one of your columns of a few weeks back telling about the beauty of the layout near Temple Bar and the Grand range.

I hitched onto a Park Service Boat—the Powell—and took a day trek up that way with Park Chief Charles Richey, his son, his brother Curt and his wife and my frau and the Bill. Along on the excursion were two park service rangers—experts on geology and one an expert on fish, water and

came back with a bright red body, a renewed promise to my that it is an absolute must that everyone visit either Lake or Lake Mohave at least once a month—just for the beauty and else.

It's funny what one's mind retains after a day of mixing with people as well as seeing gorgeous sights while in a remote sphere.

I recall the geologist saying the world is 4 billion years old and the area around here is 60 million years old. He has found fossils and markings to prove it. He also explained how Fortification is a heap of lava tossed up eons ago by some volcano. About some sloth marks, too, which walked the hills and in this area millions years back.

I recall the Curt Richeys talking about their life in Mexico where he is an expert for the government there on sanitation. Mexico is fast clearing up all its sordidness healthy-wise commended seeing the sights and the people.

I also learned that Charles Richey is a landscape architect, was sent to Japan by MacArthur to suggest better planning for that city's post war park rebuilding program, and that he asked to transfer from his top spot in Washington after seven years so that he could get back to the wide open spaces he loves. He believes Lake Mead the most beautiful man made lake world—and he knows whereof he speaks.

He also says the fish are biting at Willow Beach.

Other items I recall from the day on the lake—the Powell canoes miles per hour . . . Richey promised to assign a ranger to do a special column for us once a week in the public interest . . . I had my toe . . . I went swimming . . . Nick Nickell is a remarkable man—can fix anything and understands most anything you about—his wife Ardith always has a smile and a light-hearted . . . the intake towers that suck in Henderson's water and the Las Vegas Water System's water are about 50 feet still below low water mark . . . the carp in Lake Mead are full of anti- . . . unlike other carp around the country, because of the cold . . . and thus are good eating . . . in fact some commercial fisherman on the coast are seeking a permit to market same . . . Ruth is a perfect hostess . . . the geologist, John Good—is a top notch in the Boulder Little Theater . . . and the other naturalist has who is an ex-marine (like mine) . . . the Lake Mead Marina many attractive tours to accommodate folks seeking a perfect . . . such as we had.

You'll like the two new hotels and their shows that opened week—the Dunes and the Moulin Rouge . . . can't beat the in the former and the rhythm in the latter . . .

Henderson's top athletic great—Norm Craft—is slated to go to the U.

This week marks the opening of a major store to better service Henderson and Boulder's furniture needs . . . the Henderson Furniture Company—some 7,000 square feet of modern architecture and with quality and quantity and price to fit the needs of the communities.

Rae VonDornum's...

Pittman Party Line

Work on the new parsonage for the Pittman Chapel, is temporarily halted. The Reverend Emil Busk intends to stucco the outside of the new building and says there is still much work to be done to the inside before it can be occupied.

When the sturdy construction of this house was mentioned, Rev. Busk said it is probably due to his having survived two terrible earthquakes. One sure way of finding out just how a building is put together.

The Pittman pastor was living in San Francisco during the terrible earthquake in the early part of the century and was in Long Beach at the time of the big earthquake there. After two such experiences, he says, building to withstand such disasters becomes sort of second nature.

The new parsonage, with its high foundation and shingled gable roof, has an exceptionally large appearance and will be a real addition to this part of Pittman's residential area.

Connelly Building
The new house which Chuck Connelly is building, just down the block from the new parsonage, is also going up rather rapidly. This house is of block and wood construction with the lower part built of cement blocks and the upper part of frame construction. Trees to shade the new dwelling were planted earlier this spring.

You're Invited
Gloria Brown has announced an open-house Stanley party to be held at her home at 7:30 p.m. on Friday. All of the ladies in Pittman are invited to attend. Any prizes, which Mrs. Brown receives as hostess, will be given to the Pittman Women's Club for use in the new building or to be used to raise funds for the building. Women's Club members are urged to be present at the open-house event.

A similar party, held recently at the home of Myrtle Green, was attended by Mesdames: Helen Gore, Ruth Hoffman, Virginia Cox, Clark Laub, Betty Cox, Gloria Brown, Elvira Rodriguez, and Miss Joann Gore.

Corn Again in Hospital
John Corn, who returned to Pittman about two weeks ago following five months in the Veterans Hospital in Prescott, Arizona, was returned to the hospital last Sunday.

At the time of his return, he did not anticipate another trip to Prescott but his condition became worse and further hospitalization was deemed necessary.

Peter Poncin Ill
Peter Poncin, who was taken to Rose de Lima Hospital following a sudden illness last week, has been transferred to Southern Nevada Memorial Hospital for treatment.

New Business Opened
Winifred Dukett recently opened Henderson's first collection agency, located in the Coroneos Plumbing Company office.

At the present time the collection agency is not associated with any local credit bureau. Mrs. Dukett will specialize in collecting local bills and taking care of bad checks.

Dawson's Return
Mr. and Mrs. Frank T. Dawson returned to Pittman last week after spending two months in

Billy Graham's Oiltown, U.S.A. Shown Tonight

"Oil Town U.S.A." the newest film released by Billy Graham Evangelistic Films, will be presented in the Community Church at 8 o'clock tonight, it was announced by the Reverend Mark Daniel, pastor of the Temple Baptist Church in Victory Village.

This is the second film to be released by the noted evangelist, the first western evangelistic film produced by his company was "M-Texas" The setting of both is Houston, Texas, where they were made and previewed.

The full length picture, filmed in color runs for 94 minutes. Appearing in "Oiltown, U.S.A." are Colleen Townsend Evans, Paul Power Robert Clark, Georgia Lee, Ralph Hoopes, and the stars of "Mr. Texas," Redd Harper and Cindy Walker.

The story centers around the life of Lance Manning, a wealthy Texas oil man, one of the 60,000 who attended a Sunday afternoon Billy Graham evangelistic meeting in Rice Football Stadium in Houston. After opening scenes at the giant meeting, the plot unfolds to develop the story of Manning's life.

The Billy Graham film was made for showing in churches and auditoriums and the plot weaves its Bible message into a western movie with a two-fold romantic interest.

Admission is free and the public is cordially invited to attend.

at the Golden Rule Trailer Court. Two children, Annette and Sharon, reside with their parents.

Armeta Morris, daughter of Mr. and Mrs. Dawson, was here visiting at the home of her grandmother, Mrs. Mary E. Tisdial, when her parents returned from Montana. Mrs. Morris, her husband, T/Sgt. Thomas L. Morris, and baby son Frank Leroy, are spending a month with Mrs. Tisdial and also enjoying a visit with her brother and sister-in-law, Mr. and Mrs. Bill Dawson at 70 Oklahama.

Marines Assist Pastor
Delmar Kohl and John Kalata, marines from the Lake Mead Base, last week assisted the Reverend Busk by building pockets for hymn books on the backs of the pews at the Pittman Chapel.

Before being transferred to the Lake Mead Base, Kohl and Kalata were stationed at Camp Pendleton, California where they met the Reverend Nicholas, a friend of the Pittman pastor. Both have attended church here since coming to the Lake Mead Marine Barracks.

Good Thought
For wives only: The clever wife makes a strenuous effort to discover her husband's faults so she can hide them from her friends.

Billie Danley New Home Ec. President

Billie Danley, local home economics teacher, was elected president of the Southern Branch of the Home Economics Department at a meeting held recently at the home of Mary Eaton, home economic teacher at Boulder City High School.

Mrs. J. H. Weaver was elected vice-president and Cora Rider, a fourth grade teacher in the Carver Park School was named secretary.

Mrs. Danley has successfully completed her first year in the newly inaugurated home economics department for seventh and eighth grades at Townsite Elementary School and has served as advisor to the Junior Future Homemakers of America which started during the last school year.

Miss Danley plans to attend the State Convention to be held in Reno late in August and will plan next year's school program during her summer vacation.

Speaking of PUBLIC SAFETY

Pedestrians have obligations to themselves and the motoring public. Public officials, by publicizing rules for safe walking, have reduced pedestrian accidents.

These four rules, suggested by the National Street and Traffic Safety Lighting Bureau, will help pedestrians overcome night hazards until street lighting has been modernized:

1. Always walk on the sidewalk, not in the road. If you must walk in the road, walk on the left shoulder of the road, facing traffic.
2. Cross at intersections. At night cross at lighted intersections.
3. Wear contrasting clothing, usually something white or light-colored. Better still, carry a flashlight or something made of reflectorized material.
4. Don't trust your judgment of the speed of an approaching car by its headlights at night.

There's another night hazard—bicycles. In many communities, official and non-official agencies have teamed up to meet the bike-traffic accident problem. They usually promulgate these four rules for bicyclists:

1. A good headlight and tail light (or reflector) are musts for night riding.
2. Trim your bicycle with some type of reflectorized material.
3. Wear light colored (contrast) clothing or something trimmed with reflectorized material when riding at night.

RECIPE OF THE WEEK

By Mary Lee Taylor
Orange Refrigerator Cookies

4 cups sifted, all-purpose flour
3 teaspoons baking powder
1 teaspoon salt
1 cup soft shortening
1 1/2 cups sugar
3 Tablespoons grated orange rind
2 unbeaten eggs
1/4 cup Peet
2 teaspoons Milk
2 teaspoons vanilla

Sift together onto a piece of paper the flour, baking powder and salt. Mix in a bowl until light and fluffy the shortening, sugar and orange rind. Add eggs and beat hard. Stir in about half of flour mixture. Add milk and vanilla. Stir in rest of flour mixture and mix well. Shape dough into 2 rolls about 12 in. long and wrap each in waxed paper. Chill until firm, or at least one hour before baking. When ready to bake, cut rolls into slices 1/4 in. thick. Place an inch apart on ungreased cookie pan. Bake on rack slightly above center in 375 oven (high moderate) about 12 minutes, or until light brown. Remove from pan at once. Makes 8 dozen.

Janet Highfill, James Gates Wed In Community Church Ceremony

The nuptials of Janet Highfill and James C. Gates, were blessed in a double ring, candlelight ceremony in the Community Church, Saturday evening, May 28, by Reverend Ford Gilbert.

Frank Highfill, young brother of the bride, served as candle-lighter. The church was softly scented with tall baskets of white carnations and gladioli.

Kent Longely sang appropriate selections, accompanied on the organ by Mrs. Lyl Burkholder, who also played the wedding march.

The bride, on the arm of her father, Mr. W. E. Highfill, was preceded to the altar by flower girl Christi Ellsworth in a red and white nylon gown, scattering red rose petals from a white satin basket.

The bride's gown of nylon chiffon over satin and nylon net, was fashioned with a small train and Paris inspired dropped waistline; bodice of white lace, scalloped neckline and long pointed sleeves. Her fingertip veil of nylon chiffon, edged with lace, cascaded from a pearl tiara. She wore a double strand of pearls.

The bridal bouquet was a large single white orchid with a lavender center; surrounded by single white gladioli.

(Mrs.) Barbara (Hoppe) Wilson, matron of honor, wore a lavender, frosted nylon, ballerina gown; sleeveless, with a scoop neckline, full-skirt and a deep lavender velvet cummerbund. Her clip was of matched ruyhing and she carried an old fashioned bouquet of lavender carnations.

Bridesmaids, (Mrs.) Hazel (Flack) Lindsey and (Mrs.) Margie (Perrin) Ingraham, wore frosted organdy, mint colored

gowns, designed like the matron of honor's, with deep green velvet cummerbunds, matching clip-caps and nosegay bouquets of yellow carnations.

Gene Highfill, twin brother of the bride, served as best man. Ushers were Jim Wilson and Jim Miller.

Mrs. W. E. Highfill, mother of the bride, wore a rose colored, frosted, nylon taffeta gown; with long torso that was cuffed, ending in self flowers in the back. Her portrait shell and gladioli corsage were white.

Mrs. Bruce Gates, mother of the groom, chose a beige linen dress, smartly self decorated with cut out trim. Her chapeau and gaidioli corsage were salmon colored.

Immediately following the wedding a reception was held in Gilbert Hall, which had been decorated for the occasion with large baskets of flowers, streamers, and bells.

Miss M. McGunns, Mrs. Sue Gallegos and Miss Penny Crane served from a table beautifully appointed with lace, silver, crystal, candelabra and floral pieces. The bride and groom cut the three tiered wedding cake in the traditional manner and received the felicitations of approximately 150 guests.

The bride is a pioneer of the Henderson schools, having moved here with her parents in 1942, before the schools were ready for students. She graduated in 1955 a member of the Glee Club, GAA, Pep Club, Sophomore Homecoming attendant and Junior Prom attendant. She has recently been employed at the Flower Pot.

The bridegroom is a graduate of Basic High, a two year member of

Ullom Receives Bowler's Trophy

George Ullom was presented a trophy by the Titanium Metals bowling leagues in recognition of the company having sponsored both a Monday and Friday night team throughout the season which is just drawing to a close.

The trophy was presented at a joint banquet, held at the El Cortez Hotel in Las Vegas, sponsored by the company and attended by 116 guests, 71 of which were bowlers.

Championship awards were made to the Melting and Casting Department of the Monday night league and to Mag Recovery in the Friday night league.

Other awards and monetary prizes were presented in the Monday night league to Don Turner, 263, in the high-scratch game; Mal Parkman, 616 in the high scratch series; Al Paine, 268, in the high handicap game and Ed Blue-

jacket, 681, in the high handicap series. Individual high award went to Jim Henry with an average of 170.

Maintenance was the second half winner that bowled in competition with Melting for the league championship.

Friday night league awards went to Fred Smith, 263, in the high handicap game; Joe Pilon, 240, high scratch; John Priscu, 876, high series handicap; Les Dickens, 575, high scratch series.

The individual high award in this league went to W. J. Shearin, 161 2/3.

Recruiting Officer Here Every Tues.

The U. S. Naval department would like to announce to Boulder City residents that there will be a Navy recruiting officer on hand every Tuesday at the Boulder City, Post Office from the hours of 1 until 3 p.m. for the purpose of giving out information to those interested.

Ted Barnett New N.P.S. Ranger Here
Park Ranger Ted Barnett, a veteran National Park Service man, recently transferred to the Lake Mead National Recreation Area from Organ Pipe Cactus National Monument, Arizona. He has been assigned as information ranger at the National Park Service headquarters in Boulder City.
Together with his wife, Louise, Barnett lives at 656 Avenue A, Apartment 22, Boulder City.
Barnett has served in the National Park Service for 15 years. During this tour of duty, he has been stationed in many areas including Zion, Yosemite, Hawaii, Grand Canyon, Glacier and Hot Springs National Parks; Petrified Forest and Organ Pipe Cactus National Monuments; and Blue Ridge Parkway.
For several years the Barnetts, both expert photographers, owned and operated a portrait studio in Arcata, California. Recently, Barnett received national recognition for his suggestion relating to the using of translights in display exhibits in National Park Service museums across the country.
"I am certainly looking forward to enjoying many hours with my favorite pastime, fishing, while here in the Lake Mead region," commented Barnett.

Cubs Net \$30 On Carnival
Cub Scout Pack 8 reported the carnival held on Monday evening in Gilbert Hall very successful, with the Pack netting a total of \$30. Jack Day and Darrell Totten, leaders, were in charge.
Concessions and side shows included: a fat lady, portrayed by Jim Harszy and Robert Bowles as the strong man. Games and concessions were: ring toss, water pistol shoot, bunny shoot, fish pond, penny pitch, ice cream, cookies, punch, bean bag toss, dart throw, fortune teller, and cake walk.
Jack Day, cubmaster, extended his thanks to Darrel Totten for setting up the program for the month and Buz Smith, Dick Buges, John Hournabene, Fritz

Daughter of Local Woman Loses Home in Oklahoma Tornado

Mr. and Mrs. Elmer Wynn, daughter and son-in-law of Marie Thomas, 105 Fir Street, missed death by minutes in the recent tornado which left hundreds homeless and injured and scores dead in their home town of Blackwell, Oklahoma.

In a phone call to her mother, shortly after the tornado struck, Mrs. Wynn, a telephone operator in Blackwell, said she completed her day's work just a few minutes after the twister struck the town. Her husband had gone out to visit his parents a few miles out of town and had been induced to spend the night, the elder Wynns saying they would pick up his wife when she was relieved of her duty.

A few minutes before they arrived in town the tornado struck the street where the Elmer Wynn's home was located.

Following the inside curve of the river it cut a swath of 36 blocks of homes along this street and also demolished a school, hospital, and a large glass factory.

Mrs. Wynn said she and her husband were left with nothing but the clothes on their backs and on Wednesday when she left for work she had even forgotten to wear her rings. Both, however, were busy thanking their maker for the length of Elmer's visit with his parents. Had he been at home, there is little doubt he would have been killed.

Crisler, and Art Harszy, for help on the carnival.

Next month's theme will be "Wheels, Wings, and Things," in conjunction with the cubmobile the pack will sponsor.

Awards were given to Ronnie Powell, Bobcat; Bud Smilanich, wolf and bear; Tim Millis, a gold and silver arrow; Robert Bowles, wolf; Clifford Taylor, bear; Gary Monk, silver arrow; Jim Crine, bear, silver and gold arrows; David Arkell, silver arrow; Dan Trueworthy, lion; Glen Crisler, lion and gold arrow; Jim Harszy, wolf; Robin Ritter, wolf and to Phillip Hughes, the highest rank in cubscouting—Webelos!

These very active boys are planning a "Cubmobile" as their June event.

First Stauffer Service Awards Presented
The first ten-year service pins to be given out in Henderson were recently awarded to 40 employees of the Stauffer Chemical Company. L. J. Edwards, assistant manager, made the presentations and conveyed the congratulations and good wishes of John Stauffer, vice-president of the company.

Vesper Circle Hears Welfare Worker
In a challenging talk on the meaning and methods of child guidance and welfare, Mrs. Sam Weiman, former Supervisor of Child Welfare for Clark County, addressed members of the Vesper Circle of the Community Church, at the home of Vivian Erickson, 521 Karen Way.

ways were discussed for further aiding the church program in support of this and other charities. Long range plans were made for observing the anniversary of the Community Church in September. Special guests of the evening were Mrs. H. Campbell, sponsor; Mrs. F. Erickson, Mrs. J. Gilbert and Cindy McClanahan. Romola Burk and Anita Mooring were co-hostesses for the evening. Others attending were Mesdames Marjorie Anderson, Harriet Boyd, Mira Corean, Vivian Erickson, Carol Fuller, Barbara Garvey, Donna Gilger, Ruth Larssen, Joyce Littler, Jean Nallia, Gladys Nuwash, Helen Potvin, Violet Reynolds, Lillie Shellinger, Bea Schlotthauer, Beth Stewart and Constance Tornabene.

Dance Classes
Special ballroom dancing classes will be held during the summer at Gilbert Hall, under the direction of Mrs. Mary Lamb, Townsite Elementary School teacher, who has served as instructor for the Junior Treaders for the past six months. Classes will be held each Tuesday starting on May 31st and continuing through July 5. Seventh and eighth grader classes will be held from 6:30 to 8 p.m. High School students from 8 to 9:30 p.m. and adult classes from 9:30 to 11 p.m. Prices will range from \$2.50 for the junior group to \$5 for adults Mrs. Lamb said.

The June meeting is scheduled for the 28th, at the home of Helen Potvin, 54 Church Street. Carol Fuller will assist in planning a program for the evening. World Health Organization reports that 20 million people in the world have syphilis, despite the fact that penicillin has been available to cure it during the past ten years.

Van Wagenen Boy Solves Birthday Party Problem
Robbie Van Wagenen, whose birthday usually occurs during summer vacation at Mt. Charleston, while most of his friends are either in Henderson or vacationing elsewhere, found a unique way to avoid this problem on his next birthday. Robbie has already celebrated his natal day with a theatre party held last week. Enjoying the occasion with him were David Picotte, Donny Paquette, Danny Muldoon, Charles Higley, Robin Horne, and Robert Horne.

Stauff Chemical Company was the first to open peace-time industrial operations in the Basic plant when it started work here in 1945. Those receiving the first ten-year service pins were: James M. Barnum, Elmer J. Buscher, Roy V. Clark, Willie Coleman, Illean S. Crawford, Doyle Martin, Elvis Gill, Paul Harris, Nicholas Havrilla, Waldo Highfill, Walter Honey, John Jeffrey, Jim Lloyd, Harold Miller, Thelma Oldfield, Manuel Sanchez, Samuel D. Schiers, Frank Thompson, Henry C. Weidman, Cletus Wirth, George Black, Arlene Carter, Thomas Cole, Jess Cotner, William Doremus, Thomas Flack, Percy Hamilton, Joe Harrison, Lawrence Helms, Elmer Hilsinger, Elmer Hughes, Dirk Kossen, Rey Martinez, Harry Mundy, William Park, Billy Sanner, Paul Sheppard, Charles Trueworthy, Charles Welsh and James Hardy.

Marwood A. Doud's
Mad About Dogs

We won't say anything about the punk that "borrowed" our little guy's bicycle, or the things I thought of him when I had to get out of bed and drive down to the ball park after the Boulder City Police had located it. The thing for which I am really thankful, is the fact that our policemen were on the job and that we had insisted that Roger comply with the regulations and BUY A LICENSE. If it weren't for that license, they would never have known whose bikes they located. The same applies to motorcycles, automobiles, etc. recovery is most easily accomplished and identity established by the license number.

If you don't have a license for your dog, you are not abiding by the laws governing the "Licensing and keeping of Dogs in Boulder City, Nevada." Most folks hereabouts don't know (legally) when a dog's a dog. According to the regulations, a dog is a dog, so far as licensing is concerned, when he reaches the age of 3 months. Of course, I think they should be allowed to reach the age of 6 months before being subject to licensing, because at the age of 3 months they are too young to undergo the operation that determines the license fees for females, and at the age of 6 months, most of those have been operated.

About 50% of all dog deaths occur between the ages of 5 months and 6 months. If licenses were issued to all puppies at 3 months of age, many of them would succumb before they had become old enough to get out of their own yard, or to do much damage if they did; and, if there were some means by which the licensing authority could determine the age of every pup in town, and if the licensing could

be charged annually, as a tax, perhaps a control could be accomplished.

Actually, the license tag becomes an official identification tag. It furnishes the dog catcher or anyone else who might find a lost dog, the means by which ownership can be traced, either through the Utilities Office record or through the Police Department. If you are a law-abiding citizen, you will license your pup within 10 days of the time you have acquired it—or within 10 days of the day he becomes three months of age. (I doubt if there are 10 dogs in Boulder City that were licensed before they were 6 months old).

The Regulations further state, "In the event that application is not made within the applicable time limit, the payment of an additional fee of One Dollar will be required, unless, in the opinion of the Director of Power, Boulder Canyon Project, hereinafter referred to as the Director, the delay in filing was excusable." (Of course, there is no Director of Power now, but the Project Manager will interpret the meaning of the bill).

If it were up to yours truly, the penalty would be suspended if someone's conscience suddenly influenced him to buy his dog license, but, if the dog had been impounded and required a license to effect a release, I'd say the owner was liable for the fine.

Paragraph 4 of the regulations authorizes the Director to deny license for any dog and permits the refund of fee paid, if the dog is removed from the Reservation in compliance with executive order.

The license does not afford its wearer the right to run at large any more than the license on your car could give the right to

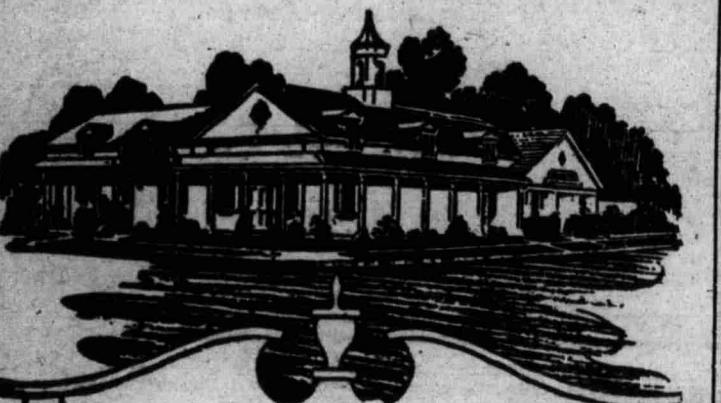

run over pedestrians or damage property. On the contrary, a dog may be impounded because of an indication of a "dangerous" disease, vicious habits or the committing of a nuisance. If your dog has a license, you are to be notified of the impoundment, but if not, he may be destroyed after 3 days' impoundment.

There is no mention of a requirement for inoculation against rabies, but there's one thing that's certain, if your dog bites someone and has not had his rabies shot within the past year, he may be impounded for a period of from two weeks to six months, and if certain symptoms develop during his confinement, he may have to be destroyed.

air-mailed to Reno or San Francisco for biological examination.

A rabies shot and the certificate which attests to the date the shot, are pretty cheap insurance against such an unhappy ending. Better see your veterinarian—or we can take care of it here on certain evenings.

The Navajo is the largest tribe of Indians in the United States, their number being estimated about 60,000 in 1948. The population of the tribe has increased times in the last 80 years.

Elizabeth Circle To Aid Church

Mrs. Dirk Kossen was welcomed back to the Circle after an absence due to illness and hospitalization in Rose de Lima. The missionary lesson on "Migrants" was given by Mabel Turner and the Devotional was by Mrs. Barger. Guests at the meeting were the Reverend Ford Gilbert, Mrs. Ethel Jilbert, and Mrs. F. Erickson. The latter joined the Circle as a new member.

Record Crowd Opens Boulder Beach

The largest crowds in the history of the Lake Mead Recreational Area crowded Boulder Beach over the Memorial Day weekend, according to a report by Walter Southerland, District Ranger. The beach was officially opened on Friday afternoon with one life guard on duty and 385 swimmers enjoying the cool waters of the lake. On Saturday 1400 visited the swimming area and on Sunday the swimming area was crowded with 3,500 swimmers. Boating over the weekend was also at an all time high, with 250 boats checking in on Saturday and 300 on Sunday. Mrs. Ruth Heard is serving as supervisory life guard assisted by Miss Marsha Malcolm and Miss Connie Malcolm of Henderson as life guards.

Artemisia Club Will Sponsor Garden Club

Final plans for the formation of a Garden Club sponsored by the Henderson Artemisia Club, were completed the other evening at the home of Harriet Boyd of Ash street. Any local women, interested in joining such a group, are invited to meet Thursday evening, June 2, 8 o'clock, at the Swanky Club for a "dessert and discussion." If you are planning on attending call Betty Ray 2-7233, Ione Martin 2-6984 or Audrey Norton 2-6382.

THE LAKE ROAD PARADE

By THORA DARLING

In New Home

Mr. and Mrs. Neal Burt and children, Judy, Neallia and Kenny, are now located in their new home at 109 Fir street, Valley View, having moved recently from 34 Atlantic street. The Burts are among the old-time residents of Henderson, having lived here for eight years. Burt is employed by the Las Vegas Laundry and Cleaners. During the Memorial Day weekend, the Burts had the pleasure of a visit from their daughter who lives in Alexandria, Louisiana, Mrs. Doranne Godwin.

Improves from Illness

Friends of Mrs. Walter Beavers, 109 Dogwood street, Valley View, are happy to know that she is improved from an illness which has kept her confined to home for the last few weeks. During her illness she received many visits from friends and neighbors and messages wishing her well.

Carver Teachers Party

Closing their school year, the teachers of Carver Park school enjoyed a farewell party in the form of an evening at the Sands Hotel, where they took in the show and chuck wagon supper. Taking part were Mesdames Cora Rider, Evelyn Charles, Margaret Moss, Mary Mooney, Pearl Sorrenson, Gladys Marshall, Mable Peterson, Geneva Lambkin, Wilma Jenne, Miss Barbara Hawes and Miss Inis Jennings, the principal.

The closing of the school year was also marked by a luncheon at school when the teachers presented Miss Jennings with gift showing their regard for her service as principal during the past year. Summer will find the teachers pursuing various lines of activity, among them summer school at the University of New Mexico for Mrs. Sanchez and at the University of Oklahoma for Mrs. Mooney.

Newly-Weds at Home

Mr. and Mrs. Jerry Booth are now at home to their friends at 110 Cedar street, following their return from a honeymoon trip to Utah. Mrs. Booth is the former Dolly Garcia, daughter of Mr. and Mrs. Lupe Garcia of Laswell street. Their marriage was an event of May 14th.

To Visit Aunt
Leaving in a few days for Fresno, California, is Mrs. Joseph

S. Lamkin, 116 Cholla street, who will spend a week with her aunt, Miss Alice Ruth, nonegenerian and pioneer resident of that city. Miss Ruth celebrated her nintieth birthday last summer while visiting at the Lamkin home and has a number of friends here. Later in June, Lamkin will join his wife in Fresno and they will continue to San Francisco for a vacation and visit with Mr. and Mrs. Milton Palaglou. Palaglou and the Lamkins became friends in Greece in 1947 during the time Lamkin was employed by the Atkinson Company in Athens. Palaglou acted as his interpreter. Since that time, Palaglou has come to the United States to make his home and has married an American of Greek origin.

Memorial Day Company

Weekend guests of Mr. and Mrs. Harry Cartwright, 107 Yucca street, were Mr. and Mrs. H. O. Straub of El Monte, California, and Mrs. Thelma Studer of Gabbs. It had been several years since Mrs. Studer, who is Mrs. Cartwright's sister, and the Straubs had seen each other and the occasion proved a happy reunion. The two sisters and Mrs.

To Celebrate 15th Birthday

The 15th birthday of Cactus Rebekah Lodge No. 40 and Boulder Lodge No. 50 I.O.O.F. will be celebrated Wednesday night, June 8 at the lodge hall on S.E. Hill. The regular Rebekah meeting will begin promptly at 8 p.m. A program is being arranged for the event. All visiting members of the Order are invited to attend.

Straub were childhood friends when they lived in Del Rosa, California.

Turtle Becomes "Mama"

An exciting event at the Harry Cartwright home, 107 Yucca st., was the outgrowth of the "adoption" of a pet turtle by their daughter, Jacqueline, and the discovery that the turtle was to become a mama. Not long after the desert creature was brought home by the family from a trip to the Lake Mead area, she carried out her ambition of mothering a brood, and made a nest in the flower bed, in which she deposited four eggs. The eggs, according to Mrs. Cartwright, resemble bantam hen eggs in size except that the skin is more soft and grainy. The excitement will really begin, of course, when the eggs hatch — the Cartwrights don't know exactly when that will be. Are there any turtle experts handy?

Miriam Giles' ... Neighborhood Chatter

The VFW Memorial Day services in Ben Church Memorial Field were very impressive, but I never seem to get over living in a town where there is no cemetery to conduct the services in. Probably it isn't the graveside rites I miss so much as the gathering of the clans and the hashing over of stories all the way back to Uncle so and so, who was chased out of England for killing the kings deer.

Here, instead of family reunions after the services, folks dash off to picnics hither and yon. 'Twas quite an accomplishment to get a table at Charleston Park over the weekend, and quite a feat to acquire a tree to sit under at Red Rock Canyon, while the children waded and caught guppies in the nearby stream and the grown-ups sat around talking, playing musical instruments and singing 'til the Canyons literally rang! A lovely way to start a summer vacation with your children.

Glad to hear that Reverend Gilbert is quietly resting after a mild heart attack Sunday morning.

Mr. and Mrs. Joseph Ream of 117 Major Street, received word over the holiday weekend that Mrs. Ream's sister and brother-in-law, former Henderson residents, Technical Sergeant and Mrs. Donald D. Johnson have arrived in San Francisco after several years service in Japan. The couple and their two boys Michael, two, and Jeff, four, vacationed in Honolulu and Wake Island before arriving in the U.S. From San Francisco they will fly to Chicago and Detroit to visit relatives and friends.

Mrs. Johnson is the former Betty Ostrander of Basic Road. After her marriage she and her husband lived in Victory Village, while he was stationed at Nellis Airbase.

George and Beth Stewart of Water Street visiting in Phoenix. Ralph and Romola Burk of East Victory Road weekending in San Diego. Barbara Garvey and family of Burton Street contemplating a jaunt to Texas. Don and Vivian Erickson spending the 30th of May in California. Laila Blake and children looking forward to a long vacation in Seattle. George Russels of Beech Street in Valley View observing Memorial Day in their home state, Utah.

Heartfelt wishes for the 15 month old son of the Conine's of Magnesium Street—the little chap lost the tip of his finger when a door slammed on it.

Clare Korhnius, of Burton St., home from college in Reno for brother John's graduation and looking very smart with a blond coiffure!

Members of the Women's Home League learned to tool leather wallets at the joint monthly meeting held in Las Vegas, under the direction of Mrs. Harland Hall.

Those from Henderson attending were Helen Bickerstaff, Billie Osborne, Mary Mellor (her sister and mother, who are visiting with her) Denise Balk, Lil Slocum, Bessie LaMarsh, Pat Funk, Marge Walters, Eileen Nicholson, Dubbie Mae, Ione Dickens, Irma DeJong, Orrel Lindsey and Billie Summerville.

Jim and Rae Smalley of Wyoming Street—so happy—with their new daughter, Esther Louise, born at Rose de Lima May 25.

Daddy is a teacher in the elementary Townsite School and they have just finished completely remodeling their home to include a grand fireplace with a raised hearth and larger rooms. Maternal grandmother, Mrs. J. P. Pennille is also visiting from California to welcome her new grandchild.

Boulder Camera

With
Bill Belknap

Sign on prospector's jeep parked near the PHOTO CENTER: "Gone Fission!"

With summer here and school out, your youngsters, if they're like ours, do a lot of hiking in the desert.

It's wonderful experience for them. You can't realize quite how wonderful unless you've lived in a big city where there's no desert to hike in.

Unconsciously they absorb big doses of natural history. It's remarkable how much the average Boulder City or Henderson youngster knows about desert birds and animals, reptiles and plants.

We've all been through the business of having dinner ready and the boys still out in the desert—and wondering if they got lost or just forgot what time it was.

If you make a deal with your youngsters about certain rules when they go hiking, you'll do a lot less worrying.

Simply having an understanding that they ALWAYS tell you where they're going and when they'll be back takes care of the most serious problems. This isn't sissy stuff. It's the first principle of exploring.

Another point to stress is that it's bad to hike alone. The old chestnut about safety in numbers is especially true when you're poking around the desert.

It's tempting to hike down the canyons that lead toward Hoover Dam. This is just asking for trouble. If young explorers must try to get down to the river, there are plenty of canyons OUTSIDE the Bureau of Reclamation restricted area near the Dam. Because the country down there is so rugged, it's impractical to fence the part that's out of bounds to hikers. Check a map or call somebody at Reclamation who knows where the line is.

You ought to see the gadget made by the Rollei-flex company for taking pictures under water with their camera. It's called the "Rolleimarin."

Made in Germany, this mechanical wonder keeps the camera dry in dives as deep as 300 feet. What's more, all controls—focusing, lens opening, shutter speeds and film advance can be operated from the outside.

This ought to be the cat's meow for taking pictures out on the Lake in bad weather and on the Colorado River for rapid-running. In fact I can think of more uses for it on the desert than the designers dreamed up for the sea.

Usually you get the most dramatic scenic pictures under wild weather conditions—thunderstorms, hail, sand and dust storms. But it's easy to wreck your camera or at least end up with an expensive repair job.

With a Rollei-flex securely battened down in a Rolleimarin, the elements can do their worst and all you'll get will be fine pictures. Using it above water the only problem is to keep the big "eye" free of mud and waterdrops. For this job a short section of a windshield wiper blade is just the ticket.

Disadvantages? The Rollei-marin is heavy. Out of water it weighs 14 pounds, submerged only three pounds. And it's expensive, 300 bucks. But if you have to take pictures under tough conditions it's well worth it.

There's a Rollei-marin on display at the PHOTO CENTER this week. Drop in and have a look.

Desert Dwellers

By WALLY WALLIS

Naturalist Lake Mead National Recreation Area

Cummins, Dalby Church Wedding Saturday May 28

Roberta Jean Cummins and Allen K. Dalbey, recited their wedding vow at a late afternoon double-ring ceremony, Saturday, May 28, at the Henderson Community Church before the Reverend Ford Gilbert.

Mrs. Jesse Hammond served as candlelighter of the sanctuary, adorned with huge baskets of white carnations and stock. Jerry Kizzia sang, "The Lord's Prayer," accompanied on the organ by Ruth Ball, who also played the wedding march as the bride approached the altar on the arm of her father, Mr. L. R. Zimmerman.

The ballerina length bridal gown was of white gossamer tulle, shirred and shaped to a floating wide skirt, topped, for the wedding, by a long sleeved Jacket. A band of white carnations served as a mere suggestion of a cap, matching the bridal bouquet of white carnations centered by a large white orchid.

Mrs. Kenneth Rogers, matron of honor and very close friend of the bride, complimented the otherwise white wedding, with her elegantly simple pink and white checked sheer gown. Her bouquet and clip cap were of pink carnations.

Mrs. R. L. Zimmerman, mother of the bride, chose a pink, full skirted linen dress with a brief jacket and white accessories.

Mrs. G. H. Dalbey, mother of the groom, wore a grey lace afternoon gown. Both mothers had corsages of white carnations.

Jim Dalbey, brother of the groom from Fort Hood, served as best man. Ushers were John Beatty and Gary Press.

A quaint gift, highlighted the table decorations, at the reception immediately following the wedding, at the home of the bride's parents at 339 Water St. It was a huge white frosted, lily-of-the-valley decorated candle, a good luck token to be burned during the wedding reception and for 2 1-2 hours at each consecutive anniversary until they reach their golden jubilee.

The wedding cake was cut in the traditional manner, from a table beautifully set with lace, silver and crystal, but here again the young couple used a moment of luck—an antique knife—used for many generations by the family newly-weds in carving and wishing for a long life of happiness!

The bride graduated from Basic High School with the class of 1949 and is a graduate of the University of Nevada. She is a teacher of the sixth grade in the Townside Elementary School.

The bridegroom formerly resided with his mother in Fallon, is a graduate of Churchill County High School, was in the navy two years and is now with the Nevada Highway Department.

Following a short honeymoon in Zion and Bryce Canyon the couple will reside in Reno, taking a second honeymoon in the fall, when they will journey to South Dakota.

Out-of-town guests were Mrs. Vern Butterfield and son, Mrs. Max Chapman and Mr. and Mrs. Don Chapman all of Fallon; Betty Jo Hazleton and Betty Wadsworth of Boulder City.

McCalley Funeral Held in Denver

Roy Dale McCalley, who died suddenly on May 24, from a lingering illness, was laid to rest in Denver, Colorado beside his mother and a day prior to her son's death.

McCalley, who resided in Pittman with his step-father, Larry Stratton, was found dead following a sudden attack on May 24. Grief over the untimely passing of his mother is believed to have been a contributing factor in his death.

The young man was to have been married on May 28 and was buried in his wedding suit.

Stratton, who was prostrated with grief at his wife's death, was greatly grieved at the sudden loss of his step-son and was unable to make the trip to Denver for the funeral service.

Mrs. John Mullins of Denver, an aunt of the deceased, came here and accompanied the body to its final resting place. Other survivors include: Mrs. Katie Evans, an aunt, of Emporia, Kansas, and two uncles; Clarence Hall of Salina, Kansas, and Lee Hall of Ontario, California.

In the course of 12 years, penicillin and other antibiotics have been developed and now figure in nearly 50 percent of all medical prescriptions.

Morry stopped in the other day and queried "Wally, how about writing a column about the features of natural history of this area; you know, the animals, the plants, etc.?"

OK, Morry, here's the first copy! My ever-clever wife, Nancy, suggested the name "Desert Dwellers." What could be a more appropriate name?

Three interesting fellows, all archeologists, stopped into my office over the weekend.

Many of you may know one of them, Al Schroeder. Formerly he was associated with the National Park Service in Boulder City. In 1942, he was a ranger-archeologist. In January 1950, he returned to the Lake Mead National Recreation Area to carry on excavations at Willow Beach.

At Willow Beach site, he uncovered a vast amount of material about the ancient peoples who lived along the Colorado River over a span of hundreds of years. This work was completed none too soon; a short time later, the waters of Lake Mohave covered the location.

Al then conducted a site-survey along the Colorado River from Davis Dam to the international boundary. A large number of reported sites were located on this expedition. Now as archeologist, he has immediate charge of the study and interpretation of the Indian life of the Southwestern National Monuments.

The other fellows, Dick Shuttler, Jr., a graduate student, and Jim Griffiths, an undergraduate, are both attending the University of Arizona.

Dick is vitally interested in the Indian life of the Lake Mead region. His is the problem of piecing together the scattered pages of the Indian story of the Lost City, Pueblo de Nevada, near Overton.

A tremendous collection of interesting material has been uncovered by many excavations by the Heye Indian Foundation of New York, Southwest Museum, State of Nevada, and National Park Service. Little of this has been thoroughly studied.

Around the middle of June, Dick and Jim are returning to this area. Then for the next several months, they will be prowling over the desert landscape locating, plotting, recording, and studying additional sites of early Indians. This information will be tied in with findings from the Lost City area to formulate a more complete Indian picture of the region.

Dick and Jim should make an excellent team as both have an ardent love for this type of study. Their heights are contrasting. Dick is of median height whereas Jim is a towering man. I still don't see how he is able to wedge his tall self into his jeep.

Undoubtedly, many of you in your wanderings over the desert have discovered Indian sites. Often times, these are distinguished only by the presence of fragments of pottery or by chipped or worked stone, or by "Indian writing" known as Petroglyphs on shining rocks. If you have come across such sites, it would be greatly appreciated if you will contact me at the National Park Service Building in Boulder City.

The information you report will assist Dick when he begins his intensive survey and study of prehistoric man of the Lake Mead Region.

The boy with the pocket gopher, David Barney, has just brought his new pet in. When it has its cheek-pouches full of food, the gopher looks all the world like my elder-daughter, Carolyn, age 8, and her current case of mumps!

Weekend Guests At Hickmans

Mr. and Mrs. E. D. Hickman, 154 Manganese, entertained two of their sons and families over the Memorial Day weekend.

Here to visit their parents were Staff Sergeant Brent Hickman with his wife, Sylvia and baby daughter, Sandra Louise, from San Diego, California; and Mr. and Mrs. LaVonne Hickman and their children Clayton, Brenda, and Gary from Overton.

It was no vacation for four-year-old Gary, who was promptly sent to Rose de Lima Hospital for a tonsillectomy. To keep the small boy happy and also take care of a necessity, his three cousins accompanied him to surgery at Rose de Lima and the four children shared a ward while recuperating. Gary's three hospital companions were: Carol, Glen, and Jerry Harper, the children of Mrs. Genevieve Harper, daughter of the Hickmans.

Thoreau wrote, "Every man is the builder of a temple, called his body."

EDUCATION EXPERTS MEET WITH SCHOOL OFFICIALS

Dr. Edgar L. Morphet, professor of education at the University of California in Berkeley and Dr. Howard A. Dawson, executive secretary of the Department of Rural Education of the National Educational Association of Washington, D. C., met with Clark County School officials this week to advise them in following the terms of the 1955 legislative act which set up the county system and included most of the suggestions in the Peabody report.

An eight point statement of the purpose of the Clark County school program, as suggested by the local school administrators, was endorsed by the county board as was a six-point program of guiding principles and the outline of the chain of command which includes a county superintendent and administrative assistant for business and education and four area administrators and other supervisors.

In addition to the paid administration officials and the seven member county board, provision was made for district advisory school boards who will meet with area administrators to express the thoughts and suggestions of the various communities in the county.

The advisory boards will have no legal standing under the terms of the legislation which will be put into operation on July 1, 1956 and will represent their communities in an advisory capacity.

Both of the noted educators expressed approval of the progress made at the two day meeting. Dr.

Morphet said that while he did not feel that the setup adopted by the Clark County board was a blueprint for the state, it was one most suitable for this county.

All members of the county school board were present, including: President Sherwin F. Garside, Milton Keefer and Dr. C. W. Woodbury, of Las Vegas, Mrs. Peggy Hyde of Boulder City, Chet Sewell of Henderson, Del Robinson of Educational district one, and Robert White of Blue Diamond.

Administrators participating in the discussion were Supt. R. Guild Gray of Las Vegas, George E. Harris and J. Harold Brinley, both assistant superintendents of Las Vegas; Loyal Burkholder of Henderson, Elbert Edwards of Boulder City, Seymour Fish of Overton and Miss Roxie Copenhaver, district deputy state superintendent.

Purpose of the county school program as adopted by the board yesterday included:

"To provide every child an educational opportunity comparable to the best standards existing in America today;

"To extend adequate educational opportunity to every child in Clark county to the fullest extent possible;

"To encourage and utilize to the fullest possible extent the understanding, cooperation, and participation of the citizens in the program of their schools;

"To develop an educational program that will contribute to the cultural, moral, social and eco-

Holds Annual Party

The Women's Auxiliary of the Clark County Medical Association will hold its third annual cocktail party at the Las Vegas Golf Club, Friday, June 4, from 6:30 p.m. to midnight.

Proceeds will go toward scholarships for Clark County girls who wish to study for a career in nursing. Four such scholarships were given this year, each amounting to \$250.00.

Members of all Henderson organizations and their friends are invited to attend the Friday evening cocktail party. Mrs. L. M. Phillips, local representative of the Auxiliary made the announcement.

Elkins Visit Pahrump, Techopa

Mr. and Mrs. Leon Elkins of 530 Blackmore Drive, and their two children, Sylvia and David, enjoyed a trip through Pahrump Valley and a visit to the famous Techopa Hot Springs over the Memorial Day weekend.

Elkins is the owner of Valley Electric whose two beautiful new yellow trucks are seen about town doing electrical construction and repair work.

Jimmy, Tally Ho Continue Anniversary Sale

Jimmy's Shoes and Tally Ho Shop have announced the continuation of their First Anniversary Sale for Thursday, Friday, and Saturday of this week.

Jimmy Shields and Ruth Shields, owners of the two popular shops which are located in the L.A. Building, are offering their Anniversary specials this week because of the many residents who were away from home during the three day Memorial Day weekend.

Boy Scout Seeks Lost Tickets

Jimmy Vincent, local Boy Scout has reported the loss of a book of Scout-O-Radio tickets which he had been selling. The tickets remained in the book the time it was lost.

Anyone finding the book tickets is requested to return to Jimmy's home at 31 Basic or call his den mother, Mrs. Frank Campbell at FR 4-8673 and someone will call for it.

Scouts working on the ticket selling for Scout-O-Radio are responsible for all tickets in their possession and unless these are returned, Jimmy will have to pay for them. This would be a hardship for a Boy Scout who is really working hard to do a good deed through ticket selling.

MARKING OF A MAJOR MILESTONE!

25th ANNIVERSARY June 4, 1955

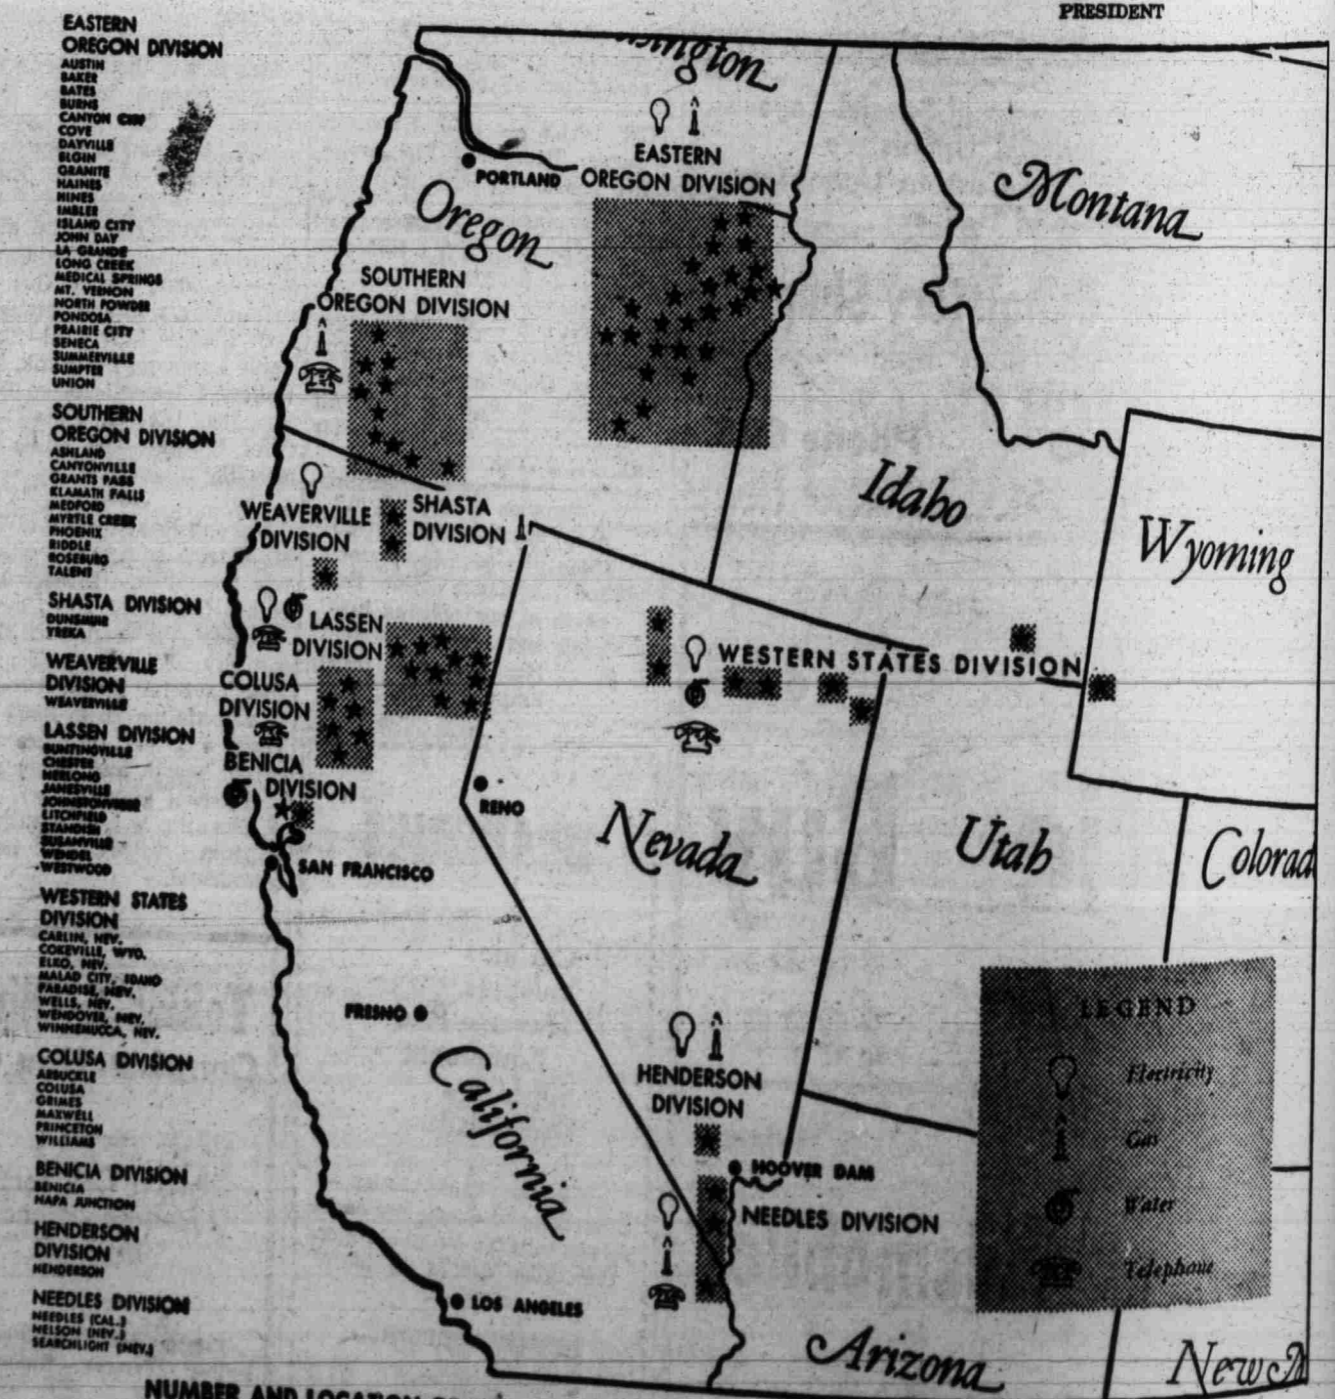

A summary for our 58,620 customers served through 10 divisions in 68 communities in five states

FORTUNATE to be located in the rapidly growing West, California-Pacific Utilities Company has reached the quarter-century mark and confidently looks forward to an even greater expansion of its customer roster and utility services. Essentially, its story has been and will continue to be the story of the oncoming West. With the utmost faith in the

future of its territory and in its own capacity to meet the demands of that growth, California-Pacific Utilities Company pledges anew low-cost, efficient operation in delivering even better gas, electric, water, and telephone service to thousands of homes and hundreds of business enterprises and industries.
