Price per Copy — 10 Cents

Dale Roberts Demands Abatement Of 'Hot Mix' Smoke; Council Concurs

Owners of the hot mix plant in the Industrial Park will be contacted by the City Administration to install a device to control the smog which envelops that area, the City Council requested last night.

Dale Roberts, Councilman of Ward Five in which the problem is located, directed a memorandum to the City Council, pointing out the daily output of particulate matter into the atmosphere is in sufficient quantity so as to be detrimental to the health and welfare of residents living in close proximity to the plant.

"We should also consider the detrimental effect of this nuisance upon residents and," Roberts said, "our community and adjacent areas near Sunset Road."

"It is my understanding that comparable industries in other areas have successfully resolved air pollution problems of this type through the use of a device known as a scrubbing tower."

Mayor William Byrne informed the Council that the County Air Pollution board is now making a survey concerning the air pollution and the city possibly should wait until action is taken through the county.

Roberts, who came armed with the city ordinance which gives the City the right to require a device for control where it is applicable, asked that action be taken now. He pointed out that the material dispensed by the plant requires a cutting solution to get off automobiles and homes, and said he had seen dust lay one-half inch thick from the plant from one morning's operation. He said the disadvantages of the plant outweigh its advantages.

The plant, which is owned by Harry Polk and Associates, is one of several located in the county.

Councilman Paul Marshall asked that a report be made by the administration on the outcome of the contact of the owner at the next regular Council meeting.

Increase City Officials' Pay From Five to 20 Per Cent

Top City Officials were granted a 20 percent increase in salaries Wednesday night by action of the City Council in a recessed meeting, an hour of which was closed to the press due to the discussions on personnel.

Other City personnel were granted lesser raises and all those under a designated bracket or number were given a flat five percent raise.

City Administrator Harold Corbin and City Public Works Director George Perkins will jump from \$633.33 per month to \$1,000, while Chief of Police George Crisler will go from \$709 to \$800, and Fire Chief Don Richard goes from \$734 per month to \$800.

City Clerk Ann Schoneman will jump from \$500 to \$600 per month; Jeff Wiese, city treasurer, from \$450 to \$500; John Manzonie, city attorney, from \$5,000 to \$5,500; Judge Earl Davis to \$4500.

Part-Time Health Inspector Dr. E. R. Lindblom will receive \$325 per month; Pat Doherty, building superintendent

will go from \$668 to \$804; Ray Arnold from \$658 to \$808; and Recreation Director Dalby Shirley from \$637 to \$652.

Newly employed Assistant City Engineer Jim Rinella will not receive a raise from his \$275 per month; Master Mechanic Floyd Weir, \$578; Willie Schoneman, maintenance foreman, \$546; Wayne Sillito, chief of party, \$558; J. F. Ward, survey party chief, \$582. Part-time sanitation inspectors at the Disposal plant Vernon Caples at \$272, and Oscar Johnson at \$260.

Councilmen voted to approve an agreement with BMI for the exchange of 20 acres of land rather than 160 as previously agreed to. The City land is in exchange for BMI land on which the disposal plant is located.

"It would take a wind with a velocity of 145 miles an hour to blow the Washington monument down," says an engineer. That's about half the speed at which a tornado rotates when it is in second gear.

City Asks BMI for talks On New Water Plan; Also On In Lieu of Tax Payments

A letter requesting a meeting between the City and Basic Management, Inc., to discuss the city's purchase of the BMI water system, and an annual payment to the City by the Industrial Plants in lieu of taxes, was directed to BMI yesterday by Mayor William Byrne.

A representative of the J. B. Hanour Company of Beverly Hills, California, Mr. Burkhardt, met with the City Council Wednesday night and told them that his area is going to continue to grow "and you'll probably have to purchase such a water system or do something like it."

The California company has offered to make a feasibility report for the city on the purchase of the water system which comes from Lake Mead, at no cost to the City if it is turned down at a by a vote of the people.

Burkhardt said that the report would include the history, projected future, growth of the city and needs, including information on financing methods. He said that the system could be financed through general obligation bonds, revenue bonds, or assessment financing, and each method would be investigated as to its feasibility.

"A growing community should have a growing water system," Burkhardt said. "A water system can't be good if it can't stand on its own two legs," he continued.

No action was taken on the item which will be discussed at a later date and with BMI officials.

ALWAYS HENDERSON RESIDENTS — Although Donal (Mike) O'Callaghan's appointment as Director of the State Health and Welfare Department will take him and his family to Carson City, they will always claim Henderson as home. Carolyn and Mike are shown at the rear, with their children Brian 4, Timothy 18 month, Terri 5, Colleen 6, and Michael 8.

O'Callaghan Moves July 15 Sorry To Leave Henderson

By LORNA KESTERSON

Donal (Mike) O'Callaghan, who was appointed this week by Governor Grant Sawyer as Director of the State Health and Welfare Department, a position created by the 1963 legislature, one of the highest positions to which a Henderson resident has been appointed, plans to leave between July 15 and 20th to begin his new work.

O'Callaghan, who has resided in Henderson for the past seven years, said that his decision to leave Henderson was not an easy one to make as he has lived here longer than any other place in his

entire life. When he came to Henderson to teach at Basic High School, it was the first permanent job he had ever held. Prior to that time he was in the armed services and worked as an iron worker to put himself through college.

"I feel that the people of Henderson have been very good to me and no matter where I go from here, I will always consider this my home," O'Callaghan said. He said he had not yet decided whether or not he will sell his home on Lake Mead Drive.

In approaching his new position, O'Callaghan said he is familiar with the seven agencies over which he will direct and will probably approach each agency at a time; which agency will be first, he has not yet decided. He will direct the Heads of the Nevada State Hospital, Nevada Youth Training Center at Elko, Girls Training Center at Caliente, Alcoholism Division, Nevada Children's Home in Carson City, Nevada State Welfare Department, Nevada State Health Department.

Asked how he feels about the new position, O'Callaghan said "It makes me feel that someone appreciates the long hours and work I've been doing, and it makes me feel good. I am glad to advance in my own field." The new director has spent the last two years as Chief Probation Officer and Director of Court Services for Clark County, a position which he states he has enjoyed because of the advancement he has made while there, and because of the people he has worked for and with.

While in the Juvenile division, O'Callaghan has hired a number of his former students at Basic High School, and has found both their respect and diligent work.

"Their work has probably resulted in me having a try at this new job," he said. "Their good work has reflected on me." He complimented Judge Zenoff and the Advisory Board of which Velta Shay of Henderson is a member.

Young Henderson residents who are now employed by the County and O'Callaghan are Howard Hill, John Springgate, Richard Price, Un a Runkle, Karen Grau, Shirley Lindblom, Vicki Smith, Estes McDaniel, Sharon Vincent and Richard Vincent. Two of the above youths will work while attending Nevada Southern at night, and three have summer employment.

Asked if he was considering running against Congressman Walter Baring in next year's election, O'Callaghan said that he has been approached for the contest, however, he feels that as long as he can advance in his own field, (health, welfare and education) he will continue there.

Mrs. O'Callaghan's comment on the appointment was, "It makes us feel good — but also a little sick to leave our many Henderson friends." O'Callaghan said they hoped to return to Southern Nevada but it would depend on where the trail leads from this appointment.

The O'Callaghans have five children, four of them having been born in Henderson. They are Michael, 8, Colleen 6, Terri 5, Brian 4, Timothy 18 months.

Shirley Answers Public Criticism

City Recreation Director Dalby Shirley, who came under fire at Monday night's City council meeting, said a decision to not count the June games of the PeeWee baseball league and begin official tally in July, was a combined decision of the baseball federation and the coaches of the various teams involved.

Shirley said that the beginning schedule had six teams listed, however, two of the teams failed to materialize due to lack of coaches. Four teams began the play when it was possible to form a fifth team from youngsters who were cut from the other teams. The last team would have had eight games at the end of the season while the other teams would have figured in 12.

Shirley stated that the other games could be worked in except that the ball field is already scheduled. He said that many parents plan their vacations at the end of ball season so he did not like to extend the season longer than early August.

Another complaint that the youth center was not open at 3:30 Friday afternoon was answered by Shirley who said

that the night before, someone had torn down the fence at the ball field and one of his assistants, John Toelstra and Pat Winters had gone to fix the fence for the evening's play and returned shortly after 3:30 p.m. Shirley was in Las Vegas to attend an AAU meeting since he is president, and Elwood Swift, Shirley's assistant, is on vacation.

Shirley said the Youth Center was closed for about two and a half hours that afternoon due to circumstances.

As to a charge by parties at the council meeting, that there were no umpires or balls at the games, Shirley said that umpires had been arranged for and balls were provided to the umpires. If the umpires fail to show up for the game and do not contact the recreation department, nothing can be done, Shirley said.

Shirley reminded residents that he has asked for help with the recreation program through the press and none has been offered. Umpires are paid \$2 a game which he states does not come from the city but is paid by the boys, by selling buttons, or other methods.

LETTER TO THE EDITOR

Morry Zenoff, Editor
Henderson Home News
Dear Morry:

As a member of the Henderson Recreation Board, I would like to reply to the complaints and petition that was presented to the City Council and published in your paper.

1. The hours for the Recreation Center are from 9:00 a.m. to 12 noon; 1:00 p.m. to 5:00 p.m.; 7:00 p.m. to 9:00 p.m. (The Friday that the complaints said the center was closed, the Director was fixing the fence at the ball field, his assistant is on vacation, and since he must do his own maintenance work, naturally he can't be two places at one time).

2. The pool is open from 12 noon to 5:00 p.m. and from 7:00 to 9:00 p.m. for public swimming. (The morning hours are used for the Red Cross Swim Program).

3. As for the Volley Ball, Badminton, Basket ball, etc. they are available to any one at anytime. Most students using the Center prefer the Indoor Baseball because more can play at one time.

4. Girls recreation is very limited due to facilities and the fact that we don't have a full-time director for girls activities. They are welcome anytime at the Center, but Tuesday is Girls night and has been for many years.

5. Recreation for Adults at the present consists of just Square Dance Clubs.

6. As for checking into the Recreation Departments of Las Vegas, Boulder City and North Las Vegas, here are the figures: The Las Vegas Department has OVER 90 full time employees. Boulder City has ONE Director, THREE full time assistants, and they hire more during the summer months. The City of Boulder PAYS 15 umpires each ball season.

North Las Vegas has FORTY-FIVE full-time employees, one of which is a woman, a director just for Women's activities.

We are unable, at this time to quote their budget figures, but with a staff of this size, I am sure their Budget is much higher than ours.

7. The Budget for the Henderson Recreation Department is \$29,698. We have ONE Director, ONE assistant, and their Salaries, the salaries for the life Guards and other extra help must be paid out of this.

8. We have \$9,941 for Recreation equipment, utilities, membership fees and postage, etc.

9. We have an active Teen Club at the Center, and we arrange dances and swim parties for them and get wonderful participation.

As a member of the Board, I welcome suggestions and criticism, but I feel that in the best interests of all concerned, that it is unfair and unwarranted for one or two parents that are angry to indiscriminately label the Recreation Department and the Recreation Board inadequate.

Sincerely,
Mrs. Harold D. Winall
Board Member

No government can long exist with half the people supporting it and the other half holding it up.

27 — Marie and Charles Connor, (their 22nd), Edith and Osborne Traasdahl; 28 — Mara and Dee Brush (their 12th), Nell and Jack Sutphin.

29 — Irene and Sam Cossins; 30 — Linda and Lynn Ellsworth, Florence and Gene Baird; 31 — Phyllis and Joel Zander (their 14th), Lorraine and Louis Koop.

The British church that is jazzing up its hymns had better exercise considerable restraint in doing so, lest some of the younger members of the congregation be inspired to hop into the aisles and set in twisting.

Dianna Smith Honored By LDS Church

Dianna Lynne Smith (Danne) daughter of Mr. and Mrs. Raymond L. Smith, 50 E. Atlantic, was recently honored by Bishop Marlan Walker of the Henderson first ward L.D.S. Church for her perfect attendance to all church meetings for the past five years. She attended three meetings a week, Sunday School, Sacrament Meeting, and M.I.A. Danne is the only youth in the Lake Mead Stake with this record.

Come rain or shine Danne attended the meetings. If she happened to be out of town she would make it back in time to be at church.

When she was involved in an accident, breaking her wrist, she insisted on being home from the hospital in time to keep up her record.

She even decided against a deer hunting trip with her father, after making up all the necessary school work, because she would be too far away from a town to get to M. I. A.

The end of the fourth year she was awarded by the Mutual, a beautiful necklace of gold laurel leaves with a pearl inserted in each leaf. She was unexpectedly honored again for her fifth year, when the Bishop himself pinned a beautiful corsage on her.

She is planning on making it through the sixth year without a miss, and with her determination and enthusiasm she will make it. Each time she attends she encourages her friends to go with her.

Danne also received a letter of appreciation from President David O. McKay for the wonderful work she has contributed to the missionary plan.

COOL CONCENTRATION Earl Keenan is shown concentrating on what anyone would term a good sized dish of ice cream and cake served at the ice cream social Friday night by members of the Business and Professional Women. Proceeds from the event will go for the sponsorship of a scholarship to a local high school graduate.

Charles B. Armstrong App't'd Advisory Engineer, Los Angeles

Charles B. Armstrong, formerly a section head in charge of American Potash & Chemical Corporation's pilot plant operations at Henderson, Nev., has been appointed advisory engineer, manufacturing, at the company's Los Angeles Plant, effective July 1. His appointment was announced by C. L. Dickinson, vice president, manufacturing. Armstrong joined AP&CC in 1957 as a senior research engineer. He was named research project engineer assigned to the company's high energy fuel pilot plant in 1959 and section head in 1962. Armstrong is a graduate of the University of Michigan where he obtained his B.S. degree in chemical engineering and of the Illinois Institute of Technology where he received his M.S. degree in chemical engineering.

As rare as the perfect bridge hand is, it probably isn't so rare as the perfect bridge partner.

LIVE MODERN... FOR LESS... WITH GAS

Keep Cool All Summer, Warm All Winter — with a single gas flame

It heats and cools. Yet there's nothing to wear—because there are no moving parts.

That's why the Arkla Servel Sun Valley GAS Air Conditioning Unit is so economical, so trouble-free.

Whether you plan to build, remodel, or install a heating or air conditioning system, be sure to investigate this modern miracle of year 'round climate control—WITH GAS.

Stop at our office for more information. We plan and supervise the installation with the cooperation of your heating contractor.

Guide For City Charter

15th IN A SERIES
(Ed. note — In view of the importance of bringing to the attention of the people of this community all the various ideas on city government, we are printing this series of articles taken from the official publication of the National Municipal League, "Model City Charter".)

Definitions
59. As used in this charter: "Capital project," or "project," means: (a) any physical public betterment or improvement and any preliminary studies and surveys relative thereto; (b) the acquisition of property of a permanent nature; (c) the purchase of equipment for any public betterment or improvement when first erected or acquired.

"Pending," when applied to capital project, means authorized, but not yet completed.
Power to incur indebtedness by issuing bonds and notes
60. The city may incur indebtedness by issuing its negotiable bonds, and notes in anticipation of bonds, pursuant to this charter, to finance any capital project which it may lawfully construct or acquire.

Bond ordinance; vote required
61. The city shall authorize the issuance of bonds by a "bond ordinance" passed by the affirmative votes of at least three-fifths of all the members of its council, as provided by this charter.
Form and content of bond ordinance
62. A bond ordinance shall contain in substance at least the following provisions:

- (1) An appropriation of a sum of money for a capital project, described in brief and general terms sufficient for reasonable identification;
- (2) To finance the said appropriation, an authorization of the incurring of indebtedness by the issuance of bonds in a stated amount, pursuant to this charter;
- (3) A statement of the estimated maximum cost of the capital project, including any sums theretofore or thereby appropriated;
- (4) A statement of the amount of the down payment appropriated in the budget of

that year in anticipation of such bond issue;
(5) A determination of the period of usefulness of the project, within the limitations of sections 79 and 80 of this charter;

(6) A determination of the net debt of the city after issuance of the bonds thereby authorized, together with a declaration that the bonds thereby authorized will be within all debt and other limitations prescribed by the constitution and laws of this state.

Title of bond ordinance; citation
63. The title of a bond ordinance shall state the amount appropriated for an indicated project and the amount of bonds authorized to finance the appropriation. Bond ordinances shall be cited in bonds and notes by title and date of final passage.
Form and content when two or more projects are combined
64. A bond ordinance may combine two or more projects in which event it shall, for each project, establish a separate appropriation and state separately the estimated maximum costs and amounts of down payments, but shall authorize a single issue of bonds to finance the aggregate of the appropriations thereby made. The title of such bond ordinance may state the aggregate of the appropriations, instead of the respective amounts.

Form and content; average period of usefulness
65. If a bond ordinance combines two or more projects, it shall, in addition to determining the respective periods of usefulness, determine the average period, taking into consideration the respective

amounts of bonds for the several projects.
Procedure for passage of bond ordinance; publication after final passage
66. The procedure for passage of a bond ordinance shall be the same as that prescribed by sections 19, 20, 21 and 22 of this charter for other ordinances of the city, except that when published after final passage, each bond ordinance shall be accompanied by a notice in substantially the following form:

Campfire Girls End Day Camp Sessions at Townsite School

Fifty girls attended the Henderson Day camp held on the patio of the Townsite school during the weeks of June 17 through June 28, which was simultaneous with the other day camps of the Las Vegas Council of Camp Fire Girls.

Two themes were observed. The first week the girls centered on the "Desert Around Us" and the second week was "Japanese Festival." During the first week the girls used the resources of the desert, making Indian pottery, panned for gold, learned how to play a game that was popular during the gold mining days, and the last day cooked a pioneer meal.

The second week the girls did Origami paper folding, an ancient form of paper folding in Japan. The figures were then mounted on paper in a picture which told a story. Later in the week the girls did a Kabuki play, and ended the camp with a typical meal, Sukiyaki.

A total of 35 of the girls went on an overnight to Lee Canyon on Friday and Saturday which climaxed the two weeks of learning and developing a knowledge of the desert area and being aware of the culture and home life

of their Japanese neighbors. Camp director during the two weeks was Florence Smith, with Deanna Shae'er, assistant camp director; SARAH Kephart was nurse; Bernice Roberts, crafts director, and counselors were Jean Conyer, Betty Barnes, Carol Crandy, Mrs. A. U. Altmannsperger, Billye Osborn, LaVee Bibby, Dorothy Chown, Judy Falconburg, and Johanna Winlow. Mrs. Una Smith, executive director of Camp Fire was the Day Camp co-ordinator-director. Junior Counselor was Debbi Crandy.

BASIC BRIDGE CLUB LISTS WINNERS IN SPRING TOURNAMENT
Peggy and Bill Dierich were first place winners of the Basic Bridge Club spring tournament. Lily Shellinger and Barbara Nicholas were second; Doris and Al Young, third.

Howard and Miriam Giles were first place winners of the Thursday evening game. Esther Englestad and Ross Salter were second; Jan and Warren Simons, Alma Wilcox and Tex Sherrill third. This group will sponsor a new series of bridge lessons the first week in August. Telephone FR 4-5563 to register.

SYMBOL OF NEW OFFICE. Beverly Charlesworth, right, is shown accepting the gavel for her new tenure of office of president of the Toastmistress Club. Ellen Shirley, out-going president, is shown at the left. The installation of officers was held at Railroad Pass.

Card of Thanks

We wish to thank all of our wonderful friends and neighbors for their kindness shown through cards, flowers and thoughts, at the time of the death of our son Willie.

Mr. and Mrs. Alfred Martinez and family

Prominent Louisiana Residents Visits With Relatives Here

Prominent Louisiana residents, Mrs. H. Hardy and three children, have visited their aunt, Mrs. Anne Kendrick, and relatives, 109 Fir street during the past three weeks. They are the family of Dr. H. H. Hardy. Staying at the Desert Inn, they had visited Disneyland prior to coming here. They had a special birthday celebration for Mrs. Kendrick on Saturday. The three children, Rick, Melody and Gay, were entertained by their cousins Nealia and Kenny Burt during their visit. Mrs. Kendrick is well-known to all of the children in the neighborhood and is affectionately called Grandma by all of them.

A scientist says man is reverting to the ape. If so, he will doubtless make the return trip far quicker than he made the outgoing one.

CAHILLS & FRIENDS TAKE CAMPING TRIP TO LAKE MOHAVE

Mr. and Mrs. John Cahill of 274 W. Basic and their two children, John and Kathy, went on a 3-day camping trip near Lake Mohave, taking with them their friends, Herman McDonald, Ted Sanza, and Harry Banato.

The purpose of the trip was to try out the new camping equipment which Mr. Cahill had received for Father's Day.

They spent the days boating, hiking, fishing, and swimming. John and friend were the only two brave enough to swim across the Colorado river.

The three day trip was a huge success, but as fishermen they failed, for between them they caught only one trout.

Montgomery Ward Adopts All-Purpose Credit Plan

Montgomery Ward is converting three different types of credit and installment payment plans into one single, simple all-purpose credit plan for its customers, Mrs. Lois Stanley, manager of the local store at 534 So. Boulder Hiway announced today.

The new Charg - All plan replaces Ward's Revolving Charge and the 18 and 24 month time payment plans. "The new plan is a major move to simplify our customer credit program," Mrs. Stanley said. "All our customers will have been notified by July 14, the date Ward's new fall and winter general catalog will be available at our catalog order desk."

Under the new plan, retail and mail order customers

who pay their bills within 30 days do not incur any credit service charge. For those who do not wish to pay their bills in full every month, the Charg All plan offers the option of 1 1/2 per cent applied to the opening balance monthly. For customers who want to pay for major home improvements over a longer period of time, Wards also offers special terms for periods as long as seven years.

A credit customer of Montgomery Ward can make purchases of any item sold by the company simply by "charging" it on his Charg. All account whether it be a spool of thread, a suite of furniture or a refrigerator. Lengthy delays in writing

up different types of contracts have been eliminated through the new plan. Customers have one type of account and one set of payments and terms. Monthly statements are sent to each customer reporting the beginning and end-of-month balances, amount of purchases for the month, deductions for payments or credits on account, amount of service charge and amount of payment due on account.

Last year, Charg-All was introduced experimentally to Ward customers in eight southwestern states. "Our program there proved that such full disclosure of information completely satisfied the desires and needs of our customers," Mrs. Stanley said.

New Lawns And Gardens Make Good Bug Pickings

Each year, as Nevada's horde of lawn and garden fanciers increase, so do the pickings for insects. Fresh new rose bushes, flower beds, vegetable gardens and lawns mean greener pastures for insects unless the flower and garden buffs fight back. And most do by equipping themselves with the latest sprays and dusts.

Robert W. Lauderdale, Extension Entomologist with the University of Nevada's Cooperative Extension Service, says spraying and dusting are the two principal ways of applying insecticides and each method has advantages and disadvantages.

Sprayers, of course, require an insecticide to be in solution or suspension. This requires mixing and involves utensils and containers. Suspensions, or solutions, may be used on plants, but sprays of suspensions are best for applying to porous surfaces for the control of insects like houseflies or mosquitoes.

Sprays of wettable powders or emulsions are essential in controlling such pests as scale insects. Dusts are ineffective.

There's more latitude in

spraying on windy days. Sprays can be applied during wind speeds up to 10 miles per hour or when leaves or small twigs are in motion.

Spraying has the disadvantage in that mixtures must be prepared, the utensils have to be kept separate from those used in the kitchen and stored out of reach of children. Sprayers have to be thoroughly washed before another insecticide is used and with some sprayers, it's difficult to spray under the leaves. The right suspension is difficult to maintain during spraying with wettable powders and agitation is necessary to keep the water and chemicals from separating.

Insecticides which are dusted are essentially the same as those applied by spray, just the form is different. Dusts are ready to use, often the container is the duster itself, and dusting equipment is usually less expensive than sprayers.

Dust swirls around in sort of a small cloud and thus it

is easier to cover the underside of leaves. Lauderdale cautions that dust on a properly treated plant is barely visible. He notes it is a waste of money and insecticides to dust a plant until the leaves are white. Also, redusting is necessary if it rains or if sprinkler irrigation is used shortly after dusting.

Dusting is less likely than spraying to cause plant injury. With dusting, however, there's less latitude as far as wind is concerned. Dusting should be done when there's virtually no wind, or 3 miles per hour at the most. (Roughly what one would feel as a gentle breeze on his face.)

Lauderdale says that whether one uses a sprayer or duster, the first application of the insecticide should be made to the ground beneath the item being treated. This is because insects fall to the ground as the insecticide hits the foliage. "Then," he says, "start at the bottom of the plant and work to the top."

It's Time For... EYE CARE

Dr. Newton K. Wesley
DEPTH PERCEPTION

There is a great deal of misconception about depth perception. It is possible to enjoy this phenomenon even if he has only one eye.

The use of two eyes, naturally, heightens the effect of depth perception, but if you were to lose an eye, you would regain monocular depth perception very quickly. The employment of two eyes when viewing an object, enables us to "see around" it. That is, you see one side with one eye and the opposite side with the other. This increases your perspective because you see the object from two different angles.

Some one-eyed people are able to achieve a simulated type of normal depth perception by moving their eye rapidly from side to side. This gives an illusion of depth. Once a person adapts to his one-eyed condition, his depth perception is almost as keen as the normal viewer. Some of you may recall Wiley Post, the famous aviator. He wore a patch on one eye to cover his blind eye. Even with this handicap he became one of America's most outstanding aviators.

Although the one-eyed person does have a restricted visual field there are many animals whose eye placement is different from humans and who see the world vastly changed from the manner in which we view it. The horse and the rabbit are two common examples of this. They do not use the two eyes together but they have a much wider field of vision. It is only when the eyes are placed in front of the head that the two will work together and provide binocular, or two-eyed depth perception.

REMOVE WARTS!

Amazing Compound Dissolves Common Warts Away Without Cutting or Burning. Doctors warn picking or scratching at warts may cause bleeding, spreading. Now amazing Compound W[®] penetrates into warts, destroys their cells, actually melts warts away without cutting or burning. Painless, colorless Compound W, used as directed, removes common warts safely, effectively, leaves no ugly scars.

Genealogy Students Enjoy Field Trip To Salt Lake City

Eight genealogy students of the 27 who are enrolled in two classes which are held weekly, were able to get their 90 points and 19 hours in, which made them eligible to enjoy a long awaited and earned trip to Salt Lake City, Utah.

The genealogy groups are under the directions of Mr. and Mrs. Lynn Godfrey and Mr. and Mrs. Gordon Deen, who worked hard with the group and acted as the chaperones on the trip. Godfrey was unable to go with the group.

The Deens discovered that their car was ailing so the group was held up for six hours before they could get on the way. It was reported

by one of the group that it wasn't the end of the car trouble, however, for the car "blew its top". The luggage rack blew off, stringing luggage along behind the car. Also, to add to the trouble, they blew a tire, but the excitement of the things to come made them push on.

They finally reached Salt Lake City and Motel Covey all in one piece and all excited. Here they had expected to have basement apartments, but on arrival found that they had the suites, instead. They spent three nights there.

The group spent all the time they could in the archives seeking more genealogy, but the rest of the time was spent swimming, going to shows, making a trip to Gravity Hill, stopping at the Z.C. M.I., touring the L.D.S. Temple ground and museum. While at the temple, they were baptized for their ancestors. The finale of the trip came when they visited the great salt air.

There was confusion and a group of tired kids by the time they reached St. George to let one of the girls off to visit with her grandparents. In the shuffle, she found that she had lost her shoe.

Those who made the trip were Joe Stock, president, David Rhee, Kathy Wooten, Jennie Stock, Carol Wooten, Billie Rene Empey, Carol Jardon, and Dick Winget.

All reported, regardless of the troubles, that they had all enjoyed their trip and had felt well rewarded for the hard work they had rendered.

Health And Safety Tips From AMA

The great American holiday — the July 4th weekend — is here again.

For millions of American families it will be a four-day holiday this year. And for almost every family the long holiday weekend will bring at least one family picnic.

The July 4th picnic is a traditional in America as the hot dog — which often is a main staple of the picnic lunch. Even the flies and the ants have a big time at picnics.

But now and then picnics end in tragedy — the tragedy of food poisoning. Most foods spoil quickly in hot weather and away from refrigeration. If there are a few staphylococci bacteria present, they need only a few hours of time and a warm temperature to grow rapidly. Some foods can become poisoned in as little

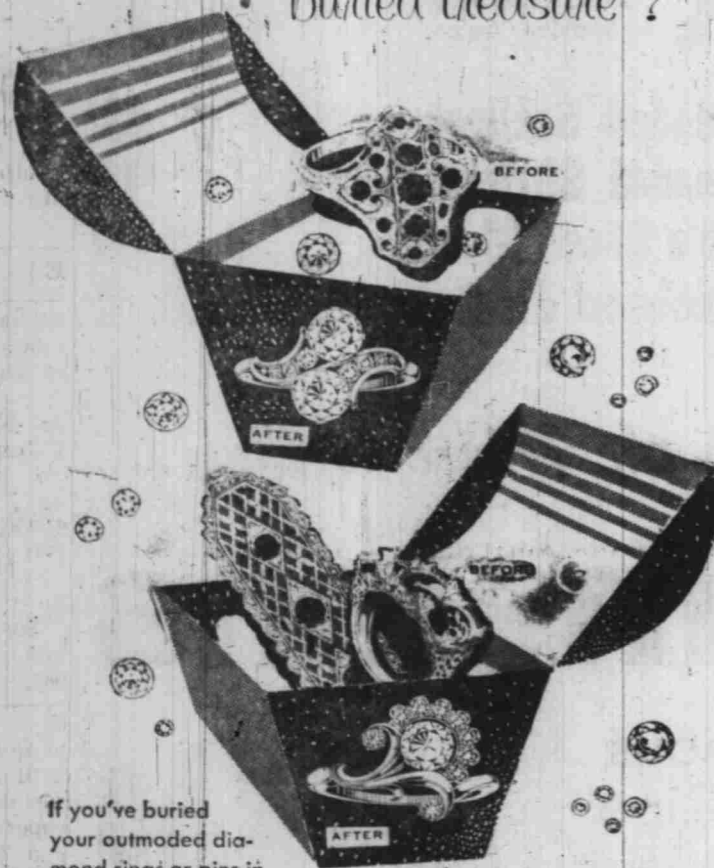

as five or six hours on a hot day.

There are some easy and simple ways to avoid food poisoning on a picnic. One valuable item is a good portable icebox. Chill the foods thoroughly in the refrigerator at home. Use plenty of ice. Make sure the lid is tight. This will keep your perishables fresh.

Take along the sandwich ingredients in the original wrappings and containers and make up your picnic lunch on the spot, just before mealtime. Take the ham in a sealed can and open it at mealtime. The same applies to mayonnaise. Keep the boiled eggs and potatoes separate in the ice box, and mix the potato salad at the last minute.

Stick to canned foods and sealed jars and bottles that can be opened just before serving. Be careful about pies and cream-filled bakery items. They spoil very fast on a hot day. Fresh fruits keep better and will make good desserts.

Does your vault hold "buried treasure"?

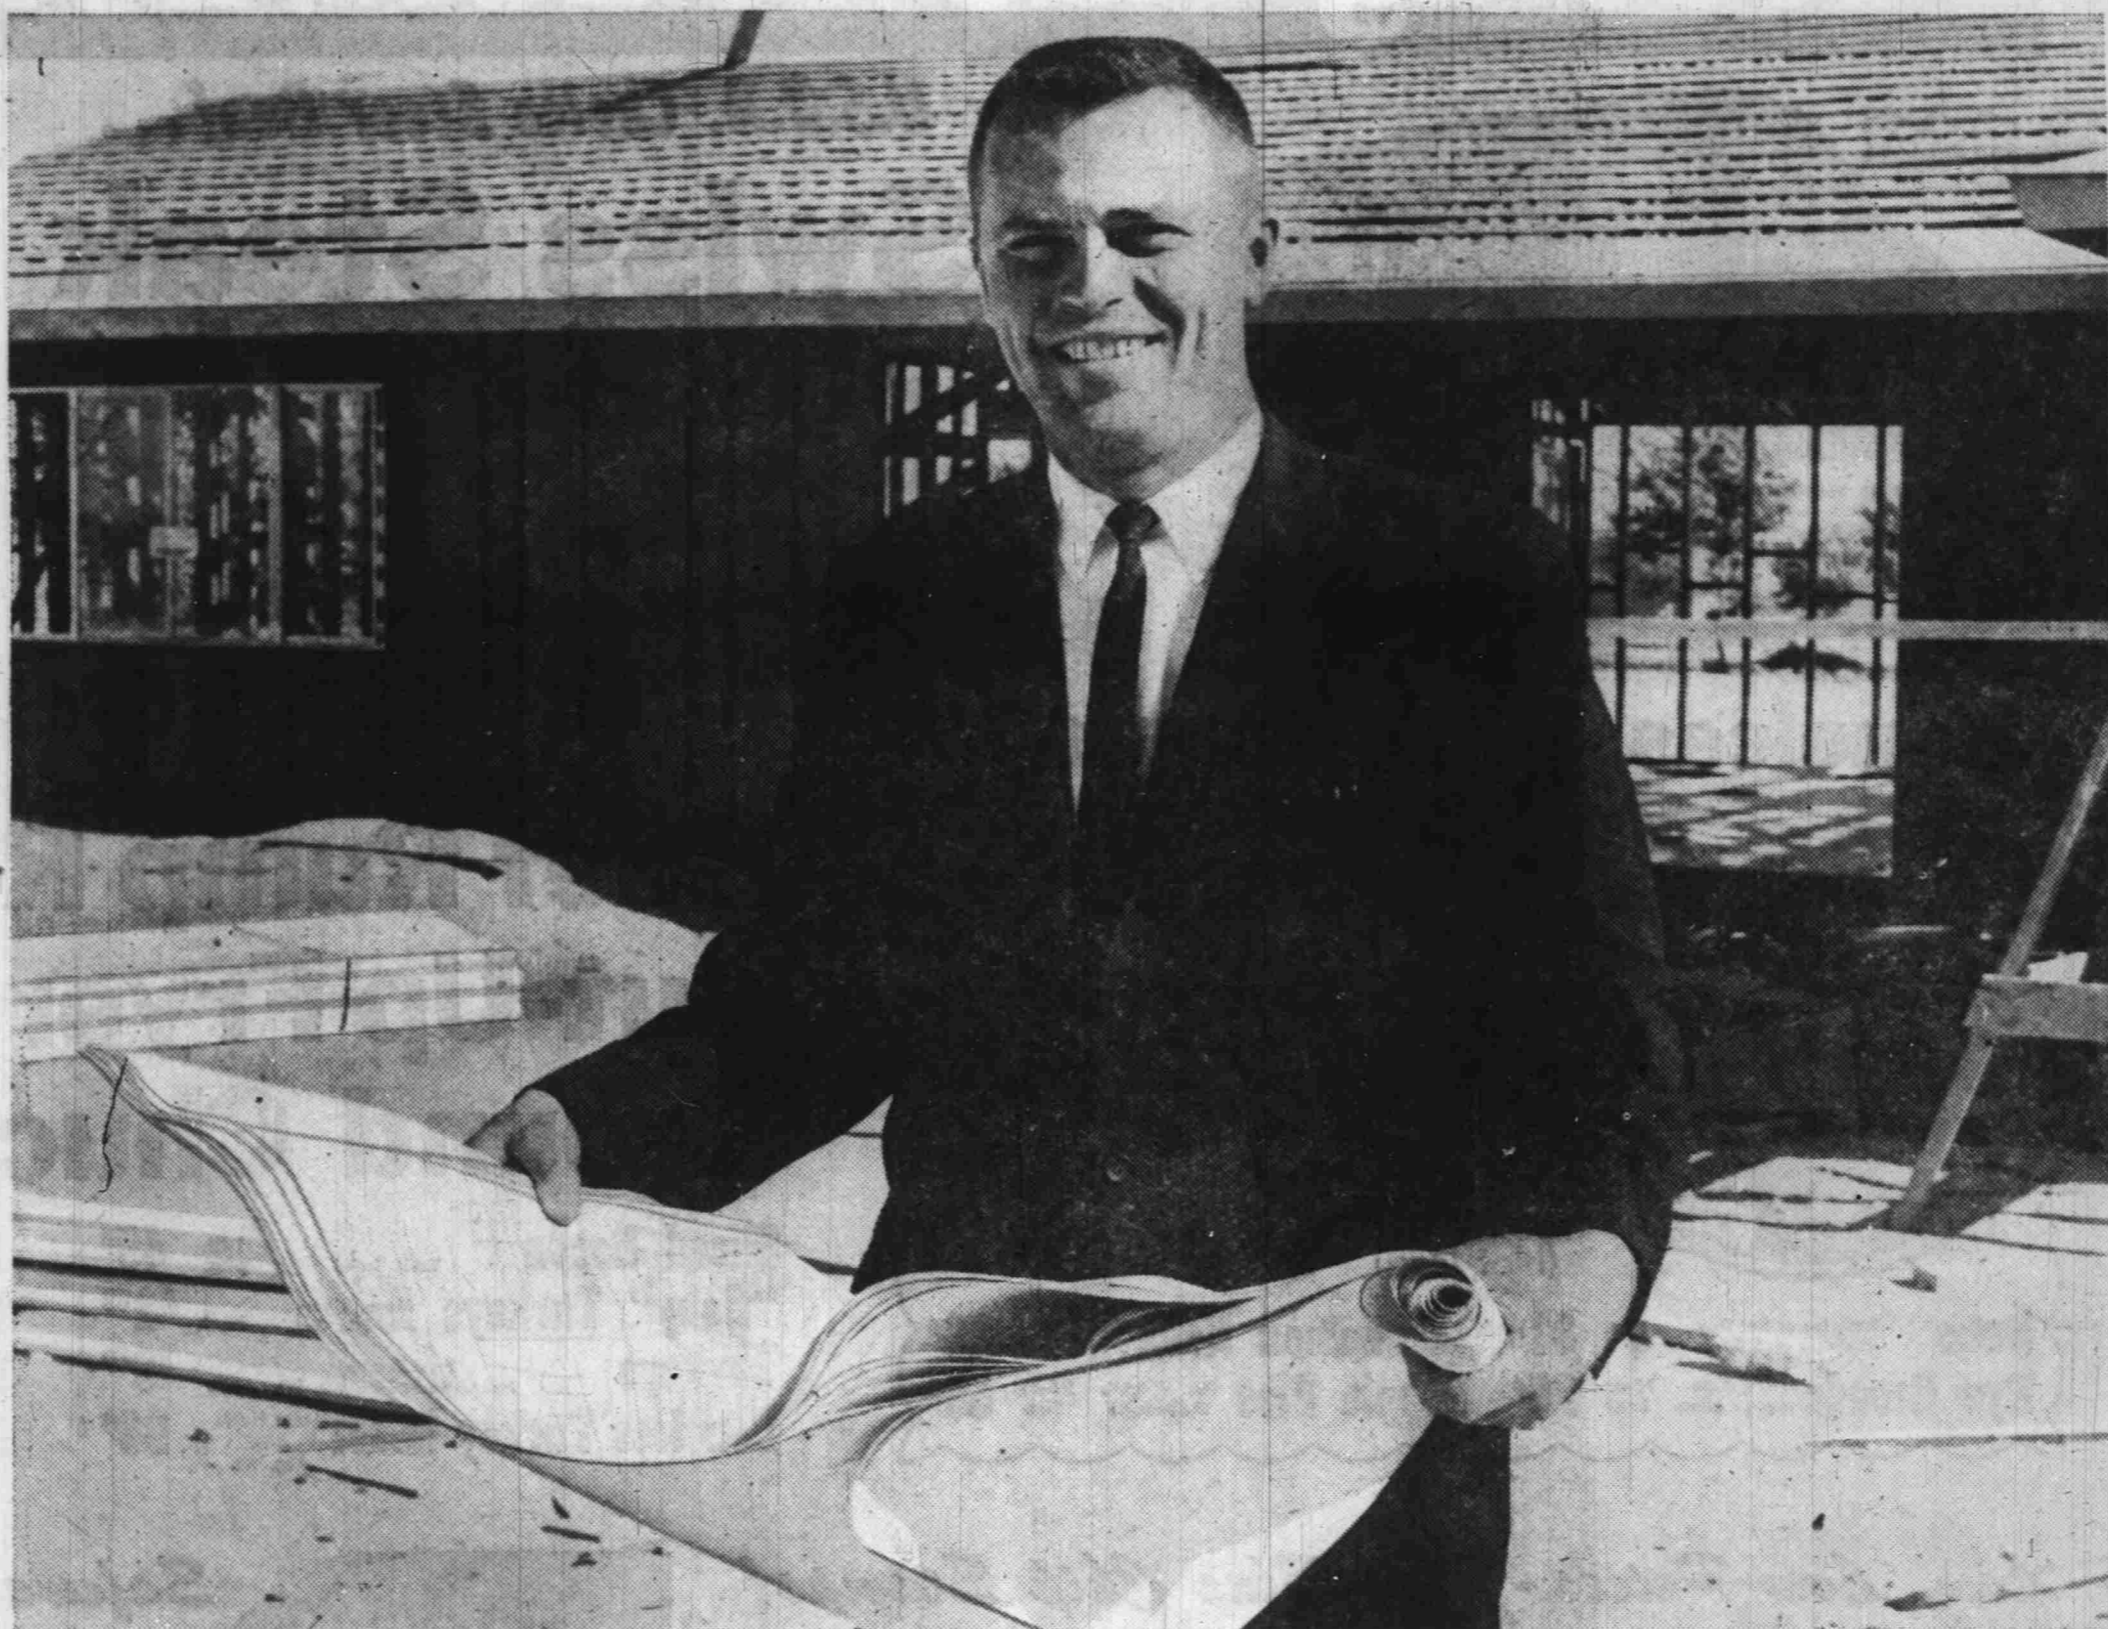

If you've buried your outmoded diamond rings or pins in your vault or jewel box... let us restore them to magical life again! In one of our smart settings, your treasured gems will look modern and fashionable... bring you new pleasure, new compliments. Choose from our wide, moderately-priced selection. Or, custom sketches will be submitted without obligation.

Many leading Democrats think Rockefeller's marriage will hurt him politically, but it may be that a great deal of this thinking is of the wishful variety.

Baring Introduces Resolution To Allow Non-Sectarian Prayer in Public Schools

Congressman Walter S. Baring last week introduced a resolution (House Joint Resolution 504) which would amend the Constitution of the United States allowing non-sectarian prayer in public schools or other public places if participation therein is not compulsory. Congressman Baring stated that his proposed amendment to the Constitution has the purpose of overriding the recent decision of the Supreme Court prohibiting prayers in public schools.

Congressman Baring said, "In my opinion this decision is not in accord with the principles upon which our country was founded and upon which our Government

was established. We as Americans have always prided ourselves upon being a Christian Nation. The early founders of our Republic were men who while determined to maintain a separation of church and state were also men who recognized our dependence upon the Supreme Being. Our whole system of government from its earliest establishment has been based on the fact that we do recognize ourselves as being a Christian Nation. This does not mean that we as a people do not extend to an individual his right to choose his religion or to be an atheist — that is his individual right — but we can respect those individual rights and still preserve our

dignity as a Christian Nation.

"Much has been said about the importance of the American Government's portraying a good image to the nations of the world. There is nothing that could be more disastrous to the world opinion of our country than to have the impression that we, who have prided ourselves on being a Christian Nation, are now denouncing our dependence upon our God. Our Nation was created with the help of God, and it is my sincerest hope that this constitutional amendment will be considered and receive expeditious passage so that the people of the United States through their legislatures can decide for themselves on this issue.

"The decision by the Supreme Court as a misinterpretation of what is said in the Constitution," concluded Congressman Baring.

HENDERSON HOME NEWS, Henderson, Nevada THURSDAY, JULY 4, 1963

WRITE YOUR CONGRESSMAN

Police Chief Asks Citizen Support Of Youth Program

Police Chief George F. Crysler today issued an appeal to the people of this community to lend their support to President Kennedy's Youth Employment and Conservation Bill, sponsored by Senator Hubert Humphrey, which was passed by the Senate and is expected to go before the U. S. House of Representatives in the near future.

The Chief said: "Common sense and justice compel establishment of this program which will give many thousands of currently unemployed young persons a chance to find employment, to be paid for their services, and to acquire skills and work experience that will give them a solid start in their working lives.

"Provisions in this legislation provide a practical means of attacking the high school drop-out problem and the juvenile delinquency associated with the problem.

"Young men and women no longer in school constitute 18 per cent of our total unemployment, although they comprise only 7 per cent of the labor force. These figures re-

fect a serious national situation. Idle youth on our streets create a host of problems.

"During the 1960s an estimated 7½ million youths will enter the job market with less than a high school education. Unless something is done to equip them to live in a skilled economy, they will pile up helplessly against the rising barriers to unskilled labor.

"In the last decade, juvenile delinquency cases brought before the courts have more than doubled, and arrests of youth increased 86 per cent, until they numbered almost one million arrests a year in 1960 — 15 per cent of all arrests.

"Favorable House action on the Youth Employment and Conservation Bill will provide work and training for youths from the age of 16 through 21.

"Members of the Youth Conservation Corps will receive \$60.00 a month in wages. They will be given lodging, board, work clothes, tools and equipment, medical and other necessities. The

erosion, stream control, reforestation, and construction of outdoor recreation and camp facilities.

"In addition, the Corpsmen will be given technical training and educational skills through classroom periods after work hours.

"The need for this new Youth Program is evident. It was designed to reduce unemployment and train more young workers who would otherwise be idle. They must be given a chance to work before they may take to crime instead."

Sen. Howard W. Cannon Appointed Co-chairman

Nevada Sen. Howard W. Cannon was appointed co-chairman of the United States Youth Program, a private-governmental program endorsed by the Hearst Foundation.

Cannon, who will serve with Sen. Carl Curtis of Nebraska, said the program has been applied most successfully in Nevada and the other 49 states where, each year, two students from each state are brought to Washington in an "internship program relating to the work of Congress, the Executive, and various federal agencies."

The program is designed to encourage and deepen the in-

terest of students in the political processes of a democratic society.

"Nevada students who have come and will continue to come to the nation's capital have gone away with a better understanding of our government and its complex operations," Cannon said.

"This type of program, conducted at no expense to the government, assures the perpetuation of our form of government and enables our young citizens to better learn how they may serve the needs of our nation and people in these difficult times," the senator said.

WORRIED? NERVOUS Over Change-of-Life?

Ease your mind. Get welcome relief with special woman's medicine

Don't dread those seemingly endless years of misery and discomfort, of sudden hot flushes, waves of weakness and irritability. There is a special woman's medicine which can relieve those heat waves, weakness, nervousness, so you can enjoy life again. So that you can once more be an affectionate wife and mother.

If you are going through the change, don't despair. Do as countless thousands of women do—take a special woman's medicine—Lydia E. Pinkham Vegetable Compound—developed by a woman—specially to help women by relieving such functionally caused female distress.

In doctors' tests woman after woman found that Pinkham's Compound gave dramatic help to all this without costly shots. Irritability is soothed, hot flashes subside. So don't sit and brood and feel unable to help yourself. You can feel better. Get gentle Lydia E. Pinkham Vegetable Compound today.

The gentle medicine with the gentle name **LYDIA E. PINKHAM**
