Shrinks Hemorrhoids Without Surgery Stops Itch—Relieves Pain

For the first time science has found a new healing substance with the astonishing ability to shrink hemornhoids and to relieve pain—without surgery. In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Mostamazing of all—results were so thorough that sufferers reade astonishing statements like "Piles have ceased to be a problem!" The secret is a new healing substance (Bio-Dyne®)—discovery of a world-famous research institute. This substance is now available in suppository or ointment form called Preparation H®. At all drug counters.

Despite what a few critics are saying, the consensus seems to be that Supreme Court Justice Douglass had the constitutional right to sedan, good motor, good marry a fourth time, even though he married a woman though he married a woman much younger than himself.

Nevada Areas Eligible For **Emergency Aid**

Nevaga Sens. Alan Bible and Howard W. Cannon reported that four droughtstricken Nevada counties nave been declared eligible for emergency assisetance from tne Department of Agricul-

The counties, first to be designated for cost-snaring conservation aid this year, are Humpoidt, White Pine, Lander and Eureka.

Bible and Cannon said the Agriculture Department has anocated \$250,000 to the Nevada State Agricultural Stabilization and conservation committee for use in snaring with farmers and ranchers the cost of emergency measures needed to provide supplemental water for crops and nvestock.

Tney stated that cost-snaring assistance is autnorized for constructing wells and installation of pipelines to bring water to livestock and crops in time to provide conservation benefits during the remainder of this year.

O'Gorman of Las Vegas, Dr. Richard Grundy of Carson City, Mrs. Hermine Franke of of the Clark County Sheriff's appointed to the board by

Dr. Juanita G. White of learned that the assignment

The committee will meet in Wasnington D.C. in Novem-

Since 1964, Dr. White has tion in early August, Dr. White tee of the American Association of University Women, Education Foundation. She was recently appointed for another two year term.

Her duties will be in direct connection with her own field of graduate specialization and training, and in extending the invitation Dr. Howe expressed the opinion that few people in our country realize the extent to wnich the Office of Education depends upon the advice and counsel of busy, public spirited citizens to heip guide its programs.

"It is better to give than to receive"-if you don't mind ingrautude.

In New York City nine months (and plus and minus some days) following the power blackout, the birth rate was almost twice as high as usual. It is surprising to learn that one great nelp in the fight against overpopulation is tele-

The country was far safer when crackpots couldn't broadcast farther than their voices would carry.

Shrinks Hemorrhoids Without Surgery

Stops Itch—Relieves Pa 1 For the first time science has four. I a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain — without surgery. In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Most amazing of all — results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!" The secret is a new healing substance (Bio-Dyne®)—discovery of a world famous research institute. This substance is now available in suppository or ointment form able in suppository or ointment form called Preparation H3. At all drug

CLOTHES CARE NEWS

GRIME — Destroyer of Clothes

Grime comes from two major sources. It's either dirt from the atmosphere which gets pressed or rubbed into garments. Or it's perspiration or skin oils, again pressed or rubbed into the garment. Or both - usually both, in

There is, naturally, no PREVENTIVE remedy. The atmosphere is never wholly clean. And we do perspire, and our skins exude oils. That's the human being for you, and that's all that can be said .

However, there is a TREATMENT. And this is it. NEVER PRESS ANY GARMENT THAT IS NOT CLEAN. Pressing or rubbing imbeds the grime more deeply, and causes it to penetrate the fibers or the fabric. The result is that THE FABRIC WILL DETERIORATE MORE

We therefore recommend that, in addition to being ure the garment is clean before it's pressed, you HAVE YOUR CLOTHES CLEANED OFTEN. It has been demonstrated time and again by every test known, that a GAR-MENT WHICH IS REGULARLY CLEANED OUTWEARS ONE THAT ISN'T BY A WIDE MARGIN. In fact, one testing firm has stated that a hundred cleanings cause less wear than one week of wearing while the fabric is soiled! This means that your clothing will have that "like new" look longer if they are cleaned often.

So, for the best wardrobe care, and clean clothes, with all the grime removed -

TICKS A NATIONAL DOG MENACE

By Bob Bartos, Manager Friskies Research Kennels

Ticks are going national. No longer are they restricted to woody or sandy stretches. They're turning up in such well-cemented areas as New York City, which means all dogs are susceptible to this nestronest. Such being the case, you

should inspect your dog peri-odically. Run your hands carefully over his entire skin. If a tick is present, your fingers will run into a little bump. On close inspection you'll find a brown-red parasite a quarter of an inch or so in diameter, or a large, flat, grey body that looks like a coffee bean. The size of the tick is determined by the length of time it has been 'asting on your pet's blood.

to have so few you can count them, simply soak each well with alcohol and then pull off with very gentle traction as it gradually loosens its hold. Be sure all the head parts come off. If left behind, infection

can set in.

If your dog is heavily infected, then you have a problem. DDT and some of the older insecticides have very lem. DDT and some of the older insecticides have very little effect on these pests. Some of the newer insecticides do a creditable job, but unless they're applied by an experienced person they can prove toxic to dogs. It's advisable, therefore, if your pet has a bad case of ticks to let your veterinarian handle the job.

Feeding tip: Puppies of large breeds of dogs. grow rapidly and thus need large amounts of proteins, minerals and vitamins. They also eat more food, so they don't need mineral additives for bone development if they are fed all they will eat of a top quality prepared dog food such as Friskies.

The acquisition of these buildings is an important and adjunct to the University. The has been, very largely, the mittee approval of a gold min- to the Executive Branch additional space provided by story of two great mining ing subsidy bill "will jar them will mean much to the booms, the magnificence of some action out of the Adminprojects taking them over.

University Press Releases Lancehead Series Titles

Released during August were "Karnee: A Paiute Narrative", by Lalla Scott of Lovelock; "Nevada's Twentieth-Century Mining Boom", by Russell R. Elliott; and "Retreat To Nevada", by Wilbur S. Shepperson. The latter two authors are professors of history on the Reno campus

new series are the latest efforts of the new Press, which in 1916 where opponents of states. has previously published a n u m b e r of monographic works within the History and Political Science and the Bibliographical series, and two other hardcover titles, one dealing with Nevada botanists and the other with Nevada

The announcement of the new series, it is hoped, will attract a number of manuscripts from Nevadans and other authors dealing with the history and culture of this state as well as the entire west.

"Karnee: A Paiute Narrative" is a remarkable and fascinating chronicle of Innearly a hundred years ago.

Deserted by her rancher father, Annie Lowry rejected Portions of the second and her white heritage to live with ation in transition between
