Dear Bonnie:

It was great meeting you and Joan yesterday. Thank you so much for all your time. When I called Dennis this morning, he went over his figures and discovered that it had been a "typo". The total should have been 3,300,000 instead of 3,330,000. So attached is the pages to be changed with the necessary corrections. Also Dennis retyped his narrative and included an additional paragraph at the bottom. I hope it will be satisfactory, if not let us know.

When you add the figures on page four under project details you do not include the site acquisition figure (according to Dennis) and when that figure is not included the total equals the figure in the front of the packet of 2,090,385.00.

Hope this gets to you tomorrow. Thanks again for your patience.

Janet
