

TOWNSITE CO-OPERATIVE BEAUTIFICATION PLAN

To Residents of Basic Townsite: In order to beautify the townsite with shrubs and flowers a co-operative buying plan has been adopted. Under the plans you may order as many shrubs as you wish, paying for them in advance, and receiving delivery at a central place in the townsite at a date which will be set later. Members of the Parent-Teachers Association will call on Townsite residents to take orders. Study the list of shrubs and bulbs and be ready to place your order when the P.-T.A. volunteer calls.

QUOTATIONS FOR BASIC TOWNSITE

<u>Shrubs</u>	<u>1 gal.</u>	<u>5 gal.</u>
Arborvitae in variety (Dwarf compact and symmetrical growth becoming almost globular as it gets older. Branches are tipped with a bright golden tint.)	.51	\$ 1.95
Cotoneaster parnavii (Shiny deep red berries in immense clusters, very dark green foliage. The most attractive of the taller growing cotoneasters.)	.43	1.95
Juniper (A bushy wide-spreading shrub with horizontal branches of bluish green foliage. Very hardy in all localities.)	.51	2.10
Japanese Privet (A large shrub or tree, leathery dark green foliage--white flowers. Adaptable for a tall hedge or handsome small tree.)	.40	1.85
