

SENATOR McCARRAN--LET'S GO TO WORK FOR HENDERSON! THE TIME IS NOW--THE DEADLINE IS APRIL 20TH.

AN OPEN LETTER TO SENATOR PAT McCARRAN

From M. M. ZENOFF, Publisher

A year or so ago, Senator, this newspaper dared suggest to you openly—that you do something about Henderson, that you tell the people all the so-called good news you had "right here in my pocket".

You became vindictive and proceeded to get even with this newspaper by using your pressure over the Secretary of the Air Force to hurt us on a business matter. We don't intend to inform the people of that today. The people of Henderson aren't concerned about that now.

What they are concerned about today concerns them—their homes, their bread and butter, their family welfare.

And that is why we write you this letter—to beg you, to implore you, to advise you that the people of Henderson need that power that you wield in the halls of congress, that influence and pressure that only you can conjure up to gain your ends.

They need action NOW—TODAY—before April 20th!

Listen—Senator—Please Listen—don't hand this over to your able Secretary Eve Adams to take care of—do it yourself—please Senator, GO TO WORK FOR HENDERSON!

In case you don't know—here are the simple, plain facts:

By April 20th, if a portion of the unused power allotted to Nevada isn't contracted for, it will automatically be given to Arizona, lock, stock and barrel—forever!

The Harvey Machine Company is willing to contract for a large portion of that power and use it in Henderson for the operation of a large factory.

This would mean employment to hundreds, possibly thousands; this would revitalize a sleeping, dormant, almost dead city! This would bring a new day to Southern Nevada. And sparkle and happiness again to the eyes of the thousand families who have sweat it out through the past years waiting upon your promises, waiting for the day when "something's going to happen."

It's here, Senator, it can happen NOW. But, here's the rub — and only you with your power, and pressure and know-how can help . . . The governing agency for the Basic plant is the Federal General Services Administration. They are the last word on all contracts of power, all policies and programs in connection with Henderson. Their okay is needed before Harvey Machine or anyone else signs up. And General Services Administration feels that Harvey Machine shouldn't be allowed so much electric energy. It feels the state and county and community would suffer sometime in the distant future by such a deal.

Now then, thanks to the Colorado River Commission, thanks to the hard work of Governor Pittman, the Harvey Machine demands for energy were worked out and okayed.

But the bottleneck—is the General Services Administration!

They have a side to their argument, no doubt about it Senator. BUT — look — they're worried about the distant future!

Senator—Henderson is worried about NOW — TODAY.

Let's let the future take care of itself. Let's let the city of Henderson become a humming, buzzing, busy city with industry, with production, with products to be sold to the outside world.

Then, in that distant future, if someone else wants

to come in and buy some power, let's solve that problem then. Maybe there'll be power available from some other dam. Maybe we can buy some from Arizona. Maybe Harvey Machine will sell some of theirs. Maybe atomic energy will be devised by them.

Let's let the future take care of itself!

Let's take care of NOW—TODAY!

Or all will be lost.

Senator McCarran—don't answer us with vindictive statements; don't scream and do nothing; don't send a secretary to do a man's job.

Go to work yourself. There's no time like now for you to instill yourself in the hearts of the people.

You went to Europe and weren't on hand to fight for the super-sonic plant which may have made Nevada. So Tennessee got it.

You went on a campaign tour of Nevada a month ago when the Parumph cotton bill was up in congress. In your absence the bill failed.

Senator—don't be absent from Washington NOW—camp on the doorstep of every agency member, storm their offices personally, argue, show them why, how, when, where—this power should be used in NEVADA.

And if you can't do it, please call upon the citizens of Clark county to help you. Mayors, managers, executives, lawyers, chamber of commerce heads, small and large businessmen, labor leaders—they're all at your service. If they had the money and time, they'd be there now, storming Washington to see that something was being done.

But, that's your job, Senator, your job!

Here's your chance to show your stuff.

So then—for your sake, for Henderson's sake, for Nevada's sake, for God's sake—Go to work—NOW—the deadline is April 20th!

FIVE CENTS

Henderson Hearsay By BERT HAVENS

Remember the story of the bad penny that kept turning up? Don't look now, but that guy's here again! Morry said that Henderson would wither on the vine unless we came back to the fold and, of course we believed him, so the old typewriter is in for another beating . . . and so are our readers. Oh well, you can always skip the first page, you know.

After really working for the past few weeks up in the big city, the peace and quiet of Henderson is just what we need. Maybe it only seems peaceful because we haven't been around much lately, but we shall do our best to keep things going along serenely. Unless, of course, some big bully starts stealing our lollipops. Then we'll yell like heck!

In addition to soiling newly washed clothes and covering furniture with that well-known film, the severe dust storms of the pastweek, caused by unusually high winds, resulted in greatly reduced attendance at the carnival sponsored by the Sheriff's Athletic League. We tried to get there last Saturday night, but after bucking the gale and dodging the raindrops for a couple of blocks we decided it wasn't a fitnight out for man or beast, so retired to the comfort of the living room heater. That kind of weather was a bad "break" for a really worthy cause. Better luck next time, fellers.

Seebly the papers that the long-awaited new street lighting will soon be installed. This has been a pet project of ours for a long time and it will be a happy day (or night) when you can stroll in the vicinity of the post office after 7 p.m. without the aid of a Seeing Eye dog. There is nothing more depressing than a dimly lit business section, not to mention the danger to pedestrians crossing the streets. Don't know how many new lights are going to be mounted, but in addition to those in the business area, here's hoping that one is installed at the intersection of Market

Street and Pacific Avenue. That spot really is dark at night!

According to Charlie Bontrager, the 1st Anniversary celebration of Prime Meats Henderson market will be something to remember for quite some time, with just about everything but a 3-ring circus for fun and entertainment, in addition to valuable prizes and exceptional food prices. There will be a loud speaker system on hand, of course, and maybe Charlie can be prevailed upon to favor the crowd with one of his tenor solos at the height of the festivities. Sorry, no tomatoes will be sold until after he's through. Yuck! Yuck!

Joe McBeth of Townsite Drug no longer looks as though he'd been drawn thru the well-known knothole, now that he has a pharmacist to relieve him of some of his work. As the proprietor of the only drug store serving some 5,000 people, Joe had to compound all prescriptions himself, in addition to his many other duties and burned the midnight oil on many a night. Now maybe his family will be able to see him once in awhile and he will be able to catch up on some of that lost sleep. They say that all work and no play makes "jack", but what good does it do if you don't hvae time to enjoy it?

Speaking of coincidences, here's one for the book! While driving back from Vegas a couple of weeks ago, a car came up behind and gave a toot on the tooter, spelling out in code the universal "HI" of the radio amateur fraternity, having seen our station call letters pasted in the rear window. Pulling up alongside, a personable young couple (it turned out that they were man and wife) identified themselves at W7 something-or-other and W7 something else of Kingman, Arizona. Our rambling wreck makes so much noise that we couldn't make out the calls, but we managed to exchange a few pleasantries before they pulled ahead and disappeared toward Boulder City. That was that, just a pleasant little interlude, and

Lake Mead to 39 Feet By July

Lake Mead is expected to rise approximately 39 feet between now and the end of July as the Rockies send their annual flood of melted snow down the Colorado River, E. A. Moritz, director of the Bureau of Reclamation's Region 3, announced today. This would be 7 feet below the reservoir's level on July 31, 1949.

A mean forecast compiled by the Bureau's Regional Office of River Control indicates that about 9,100,000 acre-feet will flow into the reservoir above Hoover Dam during the April-July period, Mr. Moritz revealed. This would be about 1,600,000 acre-feet less than last year's run-off and about 600,000 acre-feet less than the 37-year average for this period, he said.

Below-normal precipitation on the Colorado River watershed during March caused the Bureau to lower its forecast by some 900,000 acre-feet from that of a month ago. The latest forecast is based on October through March precipitation averaging 6.79 inches at 13 key stations on the upper watershed.

"This year's run-off, although a little less than the long-time average, will assure sufficient water

we rattled on with a wary eye on the mounting water temperature gauge.

So what happened? Last Sunday evening we answered a knock on the door and there stood that young couple! They turned out to be Eleanor and Kaye Palmer, just moved up here from Kingman and residing in Victory Village. Kaye is with Bonanza Airlines at McCarran Field, doing communications work. How did they find us? Easy as falling off a log. They remembered our call letters, so looked us up in the official call book that lists every licensed "ham" in the whole world and just drove over to 251 Tungsten. Had a very pleasant visit and expect to see more of them.

How did you enjoy the fishing last Sunday? We were all set to shove off for the lake at 6 a.m., but when the alarm went off at 5:15 and we heard the wind whistling, we just threw the clock at the cat and went back to sleep. Fishermen in these parts are threatening to hang the weather man unless he gives us a decent Sunday

Amateur Radio Club to Meet

The Southern Nevada Amateur Radio Club, composed of short wave operators from Henderson, Boulder City and Las Vegas, will meet Friday night in the Basic High School, at 8 p.m. A number of guests are expected to attend. There will be several technical talks by club members, followed by general discussion and refreshments. All interested persons are invited to attend.

EASTER TRAVELERS

Mrs. L. Black of Washington Way and her three children left Saturday to spend the Easter holiday with Mrs. Black's mother in Junction, Utah.

ter to meet all firm irrigation, domestic, and hydroelectric requirements throughout the next year," Mr. Moritz explained.

The Reclamation official pointed out that the water supply on the Colorado River during the past two years has made it possible to operate Hoover and Parker power plants at peak or near peak production.

once in awhile.

The Clark County Housing Authority will meet on the 20th and will discuss, among other things, the possibility of permitting George Burkin to sell package liquors in his Carver Park location. Eurkin is said to have already been granted a license by the Commission, but must await action by the Housing Authority before going ahead. Can you imagine the howl that will go up from certain people in Henderson if liquor sale is authorized on one side of the highway and not on the other? WOW!

And that reminds us: Our "Soap Box" column was not dreamed up just to air the pros and cons on the liquor and gambling question. It is printed to give everybody an opportunity to get up on their hind legs and sound off on ANY subject. Want to praise somebody or something? Want to blow off a little steam on the subject of your pet peeve? Got a good idea? Mail 'em in to Box 43 and we'll give you a large and enthusiastic audience.

School Daze

8-3 NEWS

SCIENCE AND HEALTH: In the future if we get a job as a scientist, science would come in handy. If we got a job in a hospital, Health would come in handy.

ENGLISH: If we ever get a job in an office, English would come in handy more times than once.

ARITHMETIC: Just think, if, outside of school, we came up against an arithmetic problem, we would have a few difficulties if it weren't for arithmetic class. The butcher, the baker, and the other clerks might cheat us. (Horrible thought; What if I were a clerk?)

CIVICS: Teaches us about our government and politics that will help us in the future. We will be the voters of the future, as well as the lawmakers.

LITERATURE: We will be able to read correctly, fast, and understand what we read. This may lead to hours of enjoyment.

CURRENT EVENTS: Tells us about our government and what is happening up to date in the world.

So you see they all come in handy.

By Franklin Heatley.

BEACH PARTY

Trudy Fisher, Florence Prince, Ramona Church, Shirley Cannon, Virginia Moore, and Shirley Banks got together and formed the party idea. The happy six packed a lunch and, with Trudy's father chaperoning, headed for the lake. They sang songs around a camp fire and ate. Not a thing was left but crumpled forks and hot dog buns. This was some "hen" party, wasn't it? (Weren't there any "roosters" allowed?)

By Ramona Church 8-1

TOURNAMENT IN SWAY

8-1 is all excited about the tournament. Especially the girls. They are waiting anxiously for the next game to be played. "Sid" (Ramona) is 8-1's captain. (For the girls, that is.) "Sid" wants to take the pennant for another year-end trip on 8-1's wall.

By Ramona Church.

FANCY PANTS

All girls seem to be stealing boys' shirts. Anyway, they have been wearing them for years and years. The boys still kick about. (Continued on last page)

Kay's Korner By CATHERINE HAVENS

NEW CHURCH OFFICERS

Mr. E. A. Pollard has replaced Mr. Frank Schreck as Senior Warden of St. Timothy's Episcopal Church. Mr. Schreck had held the post for several years. Mrs. R. T. Campbell has assumed the post of treasurer.

Due to Convocation being held in Las Vegas this Sunday, there will be no Church services at St. Timothy's.

VACATIONISTS

Miss Cecile Fisher and her mother, Mrs. Emily Fisher of 230 Tungsten street, will leave on a two week's vacation Friday, April 14th. The ladies are going by bus to South Bend, Indiana, where they will pick up their new car. They plan a stop-over at Grand Canyon among other points of interest, and will drive back to Henderson at the conclusion of their vacation.

BOOSTER

Bill Christensen, our popular Anderson Dairymen, was so proud that his young customer, Ray Peterson of 71 Pacific, won an award for a color illustration in MOO magazine recently that he mailed a copy of the news item, which appeared in the Henderson Home News, to the Chocolate Products Company of Chicago, Illinois, publishers of MOO. This children's magazine is distributed through the dairy to all customers on Bill's route.

On Tuesday Bill dropped off a letter to us that he received from the Chocolate Products Company thanking him for the clipping. If Bill has his way, the Henderson Home News will have national distribution.

AND THE WIND BLEW

Easter came and went in a veritable gale, and Easter finery had to be anchored firmly to withstand it. But we were luckier than most of the country, at that. Tales of snow and rain and other unpleasantness in other parts only served to bring home just how lucky we are. What's a little wind, after all?

EASTER TRIP

Mrs. A. J. Tweedie of 134 Copper Street spent the Easter holiday in Overton, Nevada.

SWEET TOOTH

Charlie Bontrager of Prime Meats and Provisions Company tells us that there will be 1000 ice cream cups and a 150 lb. Anniversary cake, baked by Gail's Bakery, on hand to add to the festivities at their First Anniversary celebration starting April 19th through the 22nd. That's quite a lot of cake and ice cream in anybody's language; enough to fill a large portion of Henderson's sweet tooth.

JOHNNY APPLESEED

The operetta "Johnny Appleseed" was presented by the students of the fourth grade on Thursday evening, April 6th, at the high school auditorium, under the capable direction of Mrs. Miriam Burkholder. The operetta was staged for the meeting of the elementary PTA, and was witnessed by an audience of more than 300.

Mrs. Burkholder, whose talent for handling children is well known, was presented with an orchid by the students between acts.

Apple pie was served at the conclusion of the meeting, and the attendance award was won by Mrs. Choppe's class at the Carver Park School, and there was a tie between Mrs. Haynes' and Mrs. Walker's class in Henderson.

EASTER PARTY

An Easter party was held last Saturday morning for Betty Jean Cole at her home, 14 Washington Way. The guests assembled at 10 a.m. and dined on the holiday. They were also required to write a sonnet for which each guest was presented with a miniature replica of a Lilly Dache Easter bonnet made of silk and lace in assorted colors. The Easter bonnets were the creation of Mrs. Marjorie DeWolf, and were entirely hand made. The table centerpiece was a large nest of flowers and eggs.

Those attending the party, which terminated at noon, were: Joanne Schreck, Margaret Sherrill, Pat Keenan, Gail Minor, and the honoree Betty Jean Cole.

Service Roads to Close If Speed Limit Unheeded

Despite warnings from the Townsite Housing Authority against cars speeding on the service roads behind the houses, the practice has not abated but has steadily increased. In some sections of the town the situation is so bad that children playing in the alleys are no longer safe. Mr. Preston Austin recently warned that the service roads would be closed to any other traffic than that for which they were originally designed unless the speed limit of 15 miles per hour was observed. Complaints have been received that this edict has been consistently ignored, and Mrs. Jean Sanborn of 14 New Mexico Way states that traffic is so heavy in her section that it constitutes a menace to safety. Residents in the community are appealing to the housing authority to protect their children from this hazard.

Well Baby Clinic

The well baby clinic will be held on Friday, April 14, 1950 at Carver Park Administration building. The county health nurse will give all immunizations, and Mrs. John E. Sturm, chairman, requests that all those wishing an appointment please phone 1106.

It is necessary that appointments be made so as to facilitate the handling of the children with proper expediency.

'Don't Soak Poor' Sen. Malone's Cry In Congress

WASHINGTON, D. C. — "Soak the poor!" is the principle of our wartime nuisance taxes," United States Senator George W. Malone (R., Nev.) declared today in a statement demanding that Congress immediately eliminate nuisance taxes.

"The low-income groups are the ones hardest hit by the excise or nuisance taxes," the Nevada Senator said, "because these taxes represent a proportionately bigger part of their cost of living." To illustrate this, Senator Malone said, "To a rich family the nuisance tax on a can of baby powder does not mean much, but to a poor family the extra pennies must be counted. Uncle Sam exacts his 20 per cent, and this, on top of all the hidden taxes, makes a 29-cent can of baby powder cost 47 cents.

Continuing, Senator Malone said: "If a member of a family lies dying and a telegram or a phone message must be sent to a relative, Uncle Sam taxes that message 25 per cent, calling it a 'luxury.' If a trip must be made and pennies counted in order to get together train fare, Uncle Sam demands a tax of 15 per cent.

"If a man must buy an automobile in order to keep his job or for the well-being of his family for a price of, say \$1500, \$195 must be scraped up for Uncle Sam before he takes possession. In every family budget, particularly those of low income, 'movies' is an item. A luxury, you say? Who is to say what is a luxury and what is a necessity? When the poor family sets aside money for the movies, they must add 20 per cent for Uncle Sam's excise tax.

"The imposition of nuisance taxes and the increase of former excise taxes, falling hardest on the poor, was a wartime measure, to be withdrawn when the war ceased. The Congressional Record is full of pledges to remove the nuisance at the end of the war.

"The chief purpose of the excise taxes was not for revenue, so we were told, they were to cut down consumption. Are we still trying to cut down consumption?"

"To correct the unfair burden imposed by nuisance taxes, I introduced a bill, S. 2751, in October 1949. The bill was referred to the Committee on Finance. While it lies in committee, the American people are clamoring for us to act now—not at some distant date in the future.

"I doubt the sincerity of those who say that this legislation to eliminate wartime excises should be made part of an over-all tax reform. When we imposed these hastily-put-together wartime nuisance taxes, with apologies to the people, did we say we would withdraw them only when we could substitute other taxes? Did we say they would be withdrawn some indefinite time after the war when we could all get together on the general reorganization of our tax structure? We did not. We said the nuisance would be withdrawn at the end of the war."

NEVADA'S HEALTH

DANIEL J. HURLEY, M. D.
State Health Officer

April 7 being named as World Health Day, we take a look at the World Health Organization, a project which holds some hope of bringing lasting peace to the world along with its primary purpose of improving health everywhere.

Nevada is only one state in a nation which is a member of WHO, but our knowledge of democracy tells us that we should take an active interest in the greatest cooperative effort man has ever made. WHO has a current membership of 67 nations. WHO operates from Geneva, Switzerland, where it occupies the old League of Nations headquarters, and it has representatives and field agents in all its member countries. WHO stems from the now defunct League of Nations and two other groups. It is a specialized agency of the United Nations, and has a staff

of about 400 workers. Placing the quest and maintenance of good health on a global basis is not only feasible but essential in these days of swift travel, when a deadly communicable disease can be transported from one continent to another through a case that is still in the incubation period and cannot be detected.

There is a WHO Newsletter, published monthly at Geneva, which will be sent without charge to groups or individuals who are interested. It is as newsy as it sounds, consisting of brief bulletins on health problems and progress from all parts of the world. If we can't make a go of a world group for health, then the world's hope for the four freedoms for all is a faint prospect indeed.

IRAQ SOAP FACTORY

A soap factory equipped with United States machinery and having an annual capacity of 2,500 tons is expected to begin operations in Iraq soon, Foreign Commerce Weekly reports.

According to The World Book Encyclopedia, the children of The Netherlands have it pretty slick. Whenever the ice on the canals is strong enough, a holiday is declared, school is dismissed, and everyone goes skating.

KAY'S KORNER

(Continued from page 1)
VISITORS FOR EASTER
Mr. and Mrs. Francis DeJong of 11 Washington Way welcomed Mr. DeJong's sister and her husband, Mr. and Mrs. William F. Meyers of Manteca, California for the Easter holiday. The Meyers are originally from Rotterdam, Holland, and have been here in the United States for three months. They returned to their home in Manteca early this week.

STORK SHOWER

Mrs. Eva Sena of Victory Village was tendered a stork shower last Monday evening at the home of Mrs. R. R. Zoorski, 77-A Victory Village.

Refreshments were served at an attractively decorated table which featured a large stork centerpiece. Mrs. Sena was the recipient of many lovely gifts from the ladies who attended. Those present were: Mrs. M. W. Simpson, Mrs. Ray Belcher, Mrs. Walsburg, Mrs. Snead, Mrs. Galloway, Mrs. Stapleton, Mrs. Brennen, Mrs. Joe Brennen, Mrs. Alice

GOOD FRIDAY

Last Friday was Good Friday.

Ashcraft, Mrs. Paula Hazzard, Mrs. R. R. Zoorski, and the honoree Mrs. Eva Sena.

CHOIR CONCERT

The Adelpian Concert Choir, conducted by Clyde Keuter, will be heard in Henderson at the Community Church on April 20th, at 8 p.m. Professor Keuter is a former concert singer, and in 1949 became the head of the music department at the College of Puget Sound. More than 500 pupils are enrolled in his department.

The concert in Henderson promises to be an outstanding event for the town, as the Adelpian Concert Choir is a top-notch group. Their offerings on April 20th will include a program of choral and individual numbers.

so we got out of school and we didn't get back until Tuesday, and everyone seems to be a little sunburned. But it was better than being in school (I guess).

By Gail Scott, 7-2

PETS

It seems that our room is turning into a place for pets instead of pupils. The first thing brought into the room was a bowl of tadpoles, or should I say tadpoles and one frog which is loose in the room somewhere. There is also a rabbit which seems very tame. It is white and it has pink eyes; everyone seems to like it and want to hold it.

By Gail Scott, 7-2.

Hy Burg, The Piano Tuner, Returns

Hy. J. Burg, the piano tuner, has returned to Las Vegas. Anyone desiring to contact him may write P. O. Box 1015, Las Vegas, or phone Las Vegas 424. He plans to remain here until the latter part of May.

THREE MUSKETEERS

"The Three Musketeers" are Janet Highfill, Letagay Bracken, and Gail Scott. Seems as though they like their name. You never see one without the other. They

get along well and never fight. (Ha! ha!). They are all in different rooms, but who cares.

By Gail Scott, 7-2.

LOST AND FOUND

William Christensen, the genial Anderson milk man, recently found an unmailed letter on the street in Las Vegas belonging to Verna Proctor, a Henderson resident. Being a stamp collector,

the mint stamp on the envelope had caught Bill's eye as it lay there. He slipped the letter into another envelope and mailed to the writer, whose return address was given on the back, and received a nice thank-you card from the lady for his trouble. Which all goes to show how important it is to place a return address on all mail. That was a nice gesture, Bill.
