FROM THE PRESIDENT:

President's Notes for Winter 2014

2013 is over. What an interesting year for genealogist in southern Nevada. There was the National

Genealogy Society's annual conference 8-11 in May; our fall seminar with about 70 attendees for our speakers Dan **POFFENBERGER** of Family Search, and Crista **COWAN** of Ancestry; and Jerry **KUNZMAN** our Vice President, arranged for great speakers and topics for our monthly meetings, including more *Brick Wall solutions*.

It will be hard to top all of this, but we are off to a flying start with our **Spring Seminar**, Saturday, 22 March 2014, hosting nationally known Colleen **FITZPATRICK**, PhD, the forensic genealogist. Dick **EASTMAN** says: "Colleen **FITZPATRICK** was a rocket scientist but now she is a forensic genealogist. She solves mysteries. Colleen says, "I find people for a living. There are 6.3 billion people on the planet and I needed to find one. And I found him." Tell your friends and encourage them to attend this seminar. It will be very interesting and informative.

MEMBER
NATIONAL
GENEALOGICAL
SOCIETY

She is a dynamic speaker who will keep you wanting more. You will have the opportunity to learn how to look at genealogy and family history from a new perspective. It may be the '*key*' to help you find that '*one elusive relative or family*'.

Jerry **KUNZMAN** has many of the coming year meeting topics and speakers ready to go. He has had assistance from his sub-committee of Becky **JACOBS** and Laura **CARROLL**, who have lots of great ideas and contacts. Let them know if you have any speaker or topic suggestions for the monthly meetings or our semiannual seminars.

Our membership is growing with well over 200 paid memberships. As your president I hope this is at least a partial indication that we are on the right track with programs and assistance offered to members. Do remember, volunteers are always needed for assistance in the Heritage Room, writing articles for the Prospector our quarterly newsletter, providing assistance at our monthly meetings to greet members and guests, and many other situations. Do contact one of your officers to let us know your interest to make this Genealogy Society really great. Thank you and may your New Year be bountiful.

LIBRARY NEWS REGISTER ONLINE FOR CLASSES

The Henderson Library District recently installed an on-line registration process that allows individuals to register for various programs and events, including those sponsored by CCNGS. Follow these steps to view library events and to register:

Go to the Libraries' website at <http://www.mypubliclibrary.com> Under "Events and Classes", select "Events and Programs". In the "Keyword" box on the left, enter 'Genealogy' and click "Find". Scroll through the months until you find something you want to register for; once you find the class, click on it. You will be taken to a registration screen to complete the process.

Be sure to enter your telephone number and Email address so you can be contacted, if necessary. With this information the instructor can obtain a listing of those who have signed up for the class, allowing for better management of the entire process.

6 FAST FACTS FOR GERMAN GENEALOGY

1. Germany became a unified nation for the first time relatively recently compared to other nations.
2. Pre-1871 Germany was composed of small states that created records genealogists need today.
3. There were two great waves of immigration.
4. First Boat immigrants are called Pennsylvania Germans (no matter where they actually settled) and numbered about 80,000.
5. Those of the Second Boat are called German-Americans and included about 5 million people.
6. Mostly Protestants -- including a small but culturally significant percentage of sectarians such as the Amish -- came during the First Boat. The second wave included about equal numbers of Protestants and Catholics.

Ladies wore corsets, which would lace up in the front. A proper and dignified woman, as in 'straight laced' wore a tightly tied lace.

Clark County Nevada Genealogical Society Presents 2014 SPRING SEMINAR - Saturday, 22 MARCH 2014

Colleen FITZPATRICK, PhD Forensic Genealogist & Former Nuclear Physicist

WHAT IS FORENSIC GENEALOGY?

Forensic scientists and genealogists share the same goal – to find out who was who, and who did what and when. In explaining how to analyze photographs, to mine databases, and to use DNA analysis to reveal family history, Forensic Genealogy emphasizes the creative parts of an investigation over the mechanics.

(<http://www.forensicgenealogy.info/>)

Lecture Subjects

1) Forensic Genealogy - CSI Meets Roots

Who? What? When? Where? Are these the words of a genealogist researching his family tree or a forensic scientist solving a mystery? Maybe someone who is both! You will arrive at this talk a genealogist, you will leave a forensic genealogist.

2) The Database Detective

Forensic Genealogy has used database mining to solve some of the most compelling mysteries of modern genealogy. It offers much insight on how to use materials you may take for granted. You may know where to look for information- but come to this lecture and find out how to look at it.

3) Genealogy and the Six Degrees of Separation – How to Find Anyone in the World

What if you could find anyone anywhere in the world? Wouldn't it make the "impossible" brick wall less daunting? If you are interested in exciting new ways of finding long lost cousins – or actually anyone, come hear this talk. The Six Degrees of Separation are History – we are closer than you think!
