SENIORS BID FAREWELL

By Kaye Davis

We shall never forget the friends and the happiness we've known at Basic high school.

It seems just a short time ago the seniors entered high school as green freshmen, and yet here we are preparing for graduation and for the future.

When you look back upon those four fun-filled years, you begin to realize that you'll never again regain all those hours of enjoyment.

How many times have we wished school were all over and we wouldn't have to worry? All too soon we find out differently.

You've heard your parents say, "high school is the happiest time of your life." Now we know it to be so.

So the seniors bid farewell to Basic High School, and hope that future classes will appreciate Basic as (we) do.

Farewell to Seniors

By Ann Murphy

Now the time has come for parting—for the seniors to take leave of their Alma Mater and to make their way into the world.

Some will go to college; others will find jobs in different professions.

The Class of 1954 will make many new friends as they go their way, but always they will hold memories of their high school friends, and the good times they had together.

"So long, Seniors, thanks for the many memories which you leave us."—Junior Class.

Senior Prophecy

Time: 1974.

Place: Basic High School.

Scene: Reunion of Class of '54.

Here we are in the multi-purpose room of Basic high school about to attend the annual class reunion held at Basic every year. The old grads are starting to file in now and as we consult our program we note the occupations listed for each person.

First on the list we have Elsa Albrechtsen, still coaching her brother Al in the finer points of the hoop sport in hopes that he will find a berth on a pro squad.

And here comes Jone Alley, who evidently just finished work at the show in time to attend the reunion.

Shirly Banks, that famed dietician, and her hubby have just arrived.

Steve Lottridge and Ray Newman have just finished papering their walls with the last 27,000,000 editions of the Pogo Comics.

Larry Clark is still going steady, hasn't had enough nerve to get married. Not so with Virgil Weese and Nancey Dill, they have been hitched for several years and have a full two platoon football squad as well as the cheerleaders to help them out.

Jack Norris is still bop king of the world and has introduced his latest the "Alligator Drag."

Dave Caulkins holds the distinction of being the oldest seaman recruit in the Navy with 20 years of service(?) to his credit.

Here comes someone familiar down the corridor . . . why it's Rayfield Cureton, he hasn't graduated yet.

Dennis Shearin is player-coach of the Hootin' Holler Polecats and is still winning sportsmanship awards . . . of course his team hasn't won anything yet but the sportsmanship is fierce.

Mary Church is head nurse at Sam Houston Institute of Technology.

Marlene Blakely and Kim Lawson are a happily wedded couple with seven little sprinters. Each of which has equaled their papas 100 yard dash record of . . . 20.9 (?) Which is pretty good for three and four year-olds.

Otta Rae McEwen, Mrs. America of 1964, it still . . . well she sure is.

Ramona Church is still singing the lead in several of the better Canadian operas, it's the only place where they will let her wear her lumberjack cap.

Glenda Clepper just rode in from Texas on a cloud of dust, no horse just dust, where she owns a large cattle ranch. About ten thousand head . . . no bodies, just heads all over the ranch.

Basic Student Stars in Rodeos

Burt France, sophomore, is an example of what can be done with a small investment and the will to succeed.

Last summer he ran an investment of \$25, given to him by his father, up to \$1500.

This was done by taking part in rodeos held in Wyoming, Idaho, Montana, Utah, and Nevada. He took part in riding bareback both horses and steers.

Not all of his rides were "gravy", however, while in Butte, he broke four ribs, displaced a neck veterbra, and dislocated his knee.

He and his brother plan to tour the Candian rodeos this summer.
